NAZIS AIM AT VITAL SEA PORTS

German Bombers, Favored By Improving Weather, Spread War of Aerial Attrition Up and Down the English Coast, Hammering Away With High Explosives at Docks Which Links the World Empire

DAMAGE INFLICTED IS MINIMIZED IN LONDON

By The Associated Press

Nazi bombers, favored by improving weather, spread the war of aerial attrition up and down the English coast today, hammering away with high explosives at the ports which link a world empire.

In one southeastern town several persons were killed when a German bomber dived from a great height, released its load and turned loose machine guns. The bombs started a number of fires. British planes rose to pursue the raider.

The damage of earlier raids was minimized by the Ministry of Home Security.

The British Ministry of Home Security, however, minimized the damage inflicted by the raiders.

The German High Command gave point to a statement of Virginia Gayda, authoritative Fascist editor, that Britain would be brought low by bombing and blockade by announcing "night raids" against the English ports, as well as against searchlight positions.

Last night, the High Command said, there were air fights near Dover, the vital channel port which Nazi bombers raided Monday.

West of the Scilly islands, about 25 miles off Lands End, England, armed merchantships were bombarded, the communique said.

Like Gayda, military observers in Germany emphasized the point of making English ports useless for receiving war supplies.

The Nazis claimed to have shot down five British planes and two barrage balloons in the battle near Dover, as well as three British planes entering Norwegian, Dutch and Danish territory. They admitted two of their own were missing.

In England it was believed three German planes were brought down.

The High Command also acknowledged that British planes had raided Germany, but declared their bombs had been dropped in Hanover, far from any military objective.

LIGHT VOTE FORECAST IN TENNESSEE TODAY

Nashville, Tenn., Aug. 1.—(P)—A light vote was forecast for Tennessee's balloting today to nominate Democratic candidates for governor, U. S. senator, three congress seats, public utilities commissioner and legislative posts.

Only scant campaign interest was shown in the race between Governor Prentice Cooper, seeking a second term, and George Dempster, a Knoxville manufacturer.

So quiet was the U. S. senatorial race that the Veteran K. D. McKellar made only one speech in the state in his renomination campaign. His opponents were Claude C. Toler, of Paris, and John R. Neal, Knoxville.

State's "Reception Center" for Selective Service Men May Be Located Near Capital

Harrisburg, Aug. 1.—(P)—Pennsylvania's "reception center" for men drafted into military service may be established at New Cumberland, across the Susquehanna river from the state capital, the adjutant general's office said today.

Under selective service, each state ushers draftees into a focal point, known as a reception center, where the men are examined, finally, issued equipment, and assigned to various camps.

The New Cumberland army quartermaster depot has been used by the CCC for several years as

Action Disposes of Graft Charges Cases

Harrisburg, Aug. 1.—(P)—The last of the campaign charges cases was disposed of formally today with the filing of a nolle prosequi order by Judge Howard W. Hughes in the case against five Dauphin county Democrats.

Judge Hughes acted on request of Carl B. Shelley, district attorney of Dauphin county. Dauphin pointed out that the defendants had been acquitted in a previous case and that evidence in the last indictment, charging conspiracy to assess the public payroll for political purposes, "is to a large extent the evidence produced by the commonwealth" in the previous trial. The defendants were Robert M. Fager, Clyde H. Smith, Wendell Morgenthaler, Frank R. Hean and William B. Freeland.

"Lovers Lane" Slaying of 22-Year-Old Irene Perry of New Bedford Develops Baffling Mystery for Dartmouth, Mass., Officials

ABSENT SINCE JUNE 29

Dartmouth, Mass., Aug. 1.—(P)—The "Lovers Lane" slaying of 22-year-old Irene Perry of New Bedford, whose partially decomposed body was found trussed up beneath a tree yesterday, developed into a baffling mystery today. Assistant District Attorney Edward J. Harrington said she was an unwed mother.

With the release of a 31-year-old New Bedford millhand who had been questioned throughout the night, police admitted they were up against a blank wall. The millhand established a satisfactory alibi, the officers said.

Harrington said the girl, whose body was found at the end of a wooded road known locally as "Lovers Lane," apparently had been strangled. After an autopsy, however, medical authorities withheld a definite finding as to the cause of death pending further investigation.

Miss Perry had been absent from her home since June 29 and Medical Examiner William Rosen said he believed she had been dead since approximately that date. Her brother, John, said she left home to pay a bill at a clothing store.

Police learned that the bill was paid and that she made several small purchases.

John said his sister, one of 12 children, appeared happy when she left home and planned to get some cream for her two-year-old son, Donald, on her way home. When she failed to return, her father, Joseph Perry, a greenkeeper at the (Turn to Page Thirteen)

STILL UNDECIDED ABOUT DEM CHAIRMAN

BY D. HAROLD OLIVER

Washington, Aug. 1.—(P)—President Roosevelt and a five-member committee faced a narrow field of choices today in selecting a new Democratic national chairman to direct the party's campaign.

Frank C. Walker, New York business man and lawyer, and Paul V. McNutt of Indiana, federal security administrator, were said by Democratic leaders to be most favored for the place being vacated Aug. 17 by James A. Farley.

the reception center for the entire nation.

In case of a hitch in the plans for use of the depot, the army officers may establish this state's reception center either at the Indian town Gap reservation in Lebanon county, or in the state farm show building in Harrisburg, they said.

The adjutant general's staff and the National Guard have set up machinery to put selective service into operation as soon as congress and the president authorize it. It would operate through 420 local boards under the Pennsylvania plan.

PRESIDENT CONSULTS ADVISERS

Acting Secretary of State Sumner Welles, Admiral Harold Stark, Naval Operations Head, and General George Marshall, Army Chief of Staff, Summoned By Executive for Discussion on "Hemisphere and National Defense"

FOES OF MEASURE STILL NOT SATISFIED

Washington, Aug. 1.—(P)—A proposal to limit to 1,000,000 the number of men who could be ordered into active training caused the senate military committee to seek further war department testimony on the Burke-Wadsworth compulsory military service bill.

The limitation, suggested by senator Lee (D-Okla.) and seconded by Senator Bridges (R-N.H.), would give the president specific authority to order conscription of 500,000 men between the ages of 21 and 30, inclusive, next October.

A further section of 500,000 men could be called early next year, although the date was not set in a rough draft of the amendment introduced at a closed committee session.

Senator Bridges said the committee agreed to hear war department officials on the question tomorrow morning, thus further delaying final committee action on the bill, which had been expected today.

Sections of the bill calling for registration of all males between 21 and 30 years, inclusive, would not be disturbed by the amendment, Bridges said.

Army officers previously had testified that from the 12,000,000 expected to register in this class, about 4,500,000 were expected to be available for training after all exemptions had been granted.

President Roosevelt called in three of his top military and foreign affairs advisers today for a conference expected to deal with the question of setting up trusteeships over threatened European possessions in this hemisphere.

The White House formally described the discussion as one which would be devoted to "hemispheric defense and national defense."

Summoned to the meeting were Sumner Welles, acting secretary of state; Admiral Harold R. Stark, naval operations chief, and General George C. Marshall, army chief of staff.

The trusteeship plan put forward by Secretary of State Hull won Pan-American support at the Havana conference this week. In substance it provides for the American nations to set up trusteeships over American territories threatened with a change of sovereignty from one non-American power to another.

Hull and his party of advisers returned from Havana today.

Sharp curtailment of military registration plans failed today to win over leading senate opponents of conscription.

Hitler Agent Leaves Scarsdale Mansion

Scarsdale, N. Y., Aug. 1.—(P)—Dr. Gerhardt Alois Westrick, a special business representative of the German government, last night suddenly left the estate where, the New York Herald Tribune disclosed today, he had been living with his family since May 6.

A maid at the house, in an exclusive residential section, said they didn't say where he had gone or when he would return.

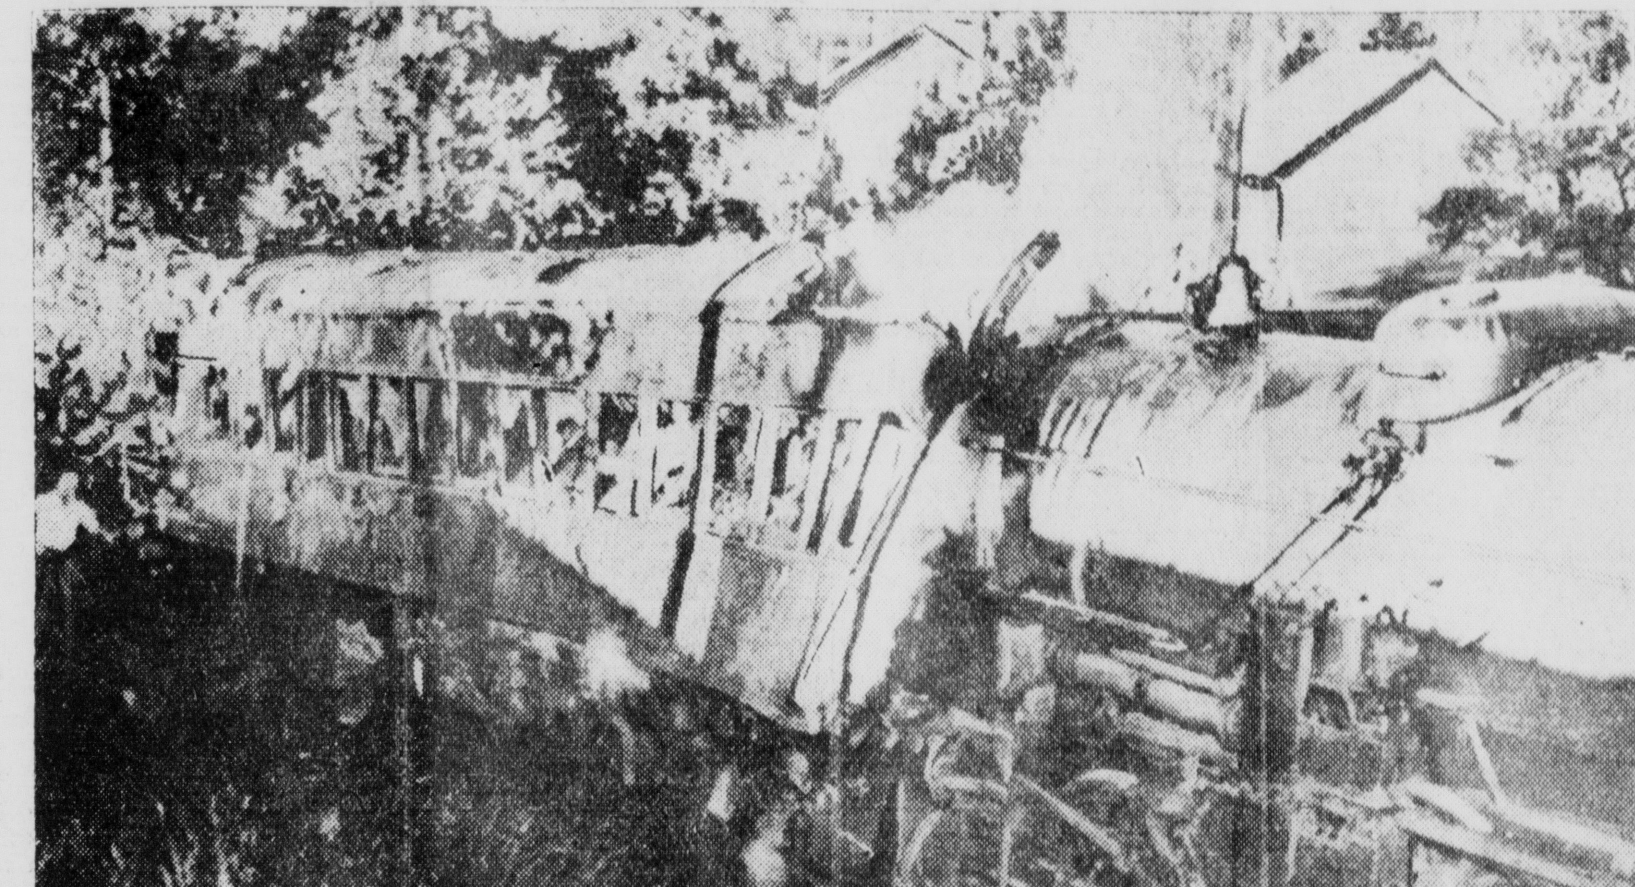

Among persons who saw Dr. Westrick frequently in the four months since he arrived in this country is Captain Torkild Rieber, chairman of the board of the Texas Company.

Captain Rieber, at a press conference at his New York office, said that Dr. Westrick was his German attorney and that he intended to talk with him any time he chose.

Dr. Westrick, a German supreme court lawyer, is accredited in the State Department's diplomatic list as commercial counselor to the German embassy.

"Doodlebug" Is Funeral Pyre for Two Score Passengers

General view at scene of head-on train crash at Cuyahoga Falls, O., shows steaming engine rammed into front of blast-shattered "doodlebug" gasoline coach in which 43 died. AVIATION GAS EMBARGO DRAWS TOKYO COMMENT

Tokyo, Aug. 1.—(P)—President Roosevelt's ban on the export of aviation gasoline to points outside the western hemisphere was interpreted by the Admiralty spokesman today as a move against Japan, Germany and Italy which might lead to repercussions.

The spokesman also inferentially warned foreign powers against interference in the current round-up of persons—apparently mostly Britons—suspected of espionage. He said this was entirely an internal affair, and in this connection he warned newspaper correspondents against "illegitimate activities."

The American aviation gasoline embargo, he said, was "an attempt to kill two birds with one stone," namely the Rome-Berlin Axis and Japan.

"Under whatever pretext the order on aviation gasoline was issued," he said, "it undoubtedly is designed to exert economic pressure on Japan."

"If America continues on the same lines it is bound to cause repercussions."

(President Roosevelt signed the order yesterday in "the interest of national defense," a White House announcement said. Japan. (Turn to Page Thirteen)

LEADERS TO VISIT WILLKIE SATURDAY

BY WILLIAM R. ARDERY

Colorado Springs, Colo., Aug. 1.—(P)—Financial and other details of Wendell L. Willkie's campaign for the presidency may be worked out Saturday when leaders of the Republican party organization visit the nominee at his vacation hotel here.

Willkie told a press conference yesterday he wanted to go over "budget and personnel problems" in the conference with Chairman Joe Martin of the party's national committee, John Hamilton, Martin's executive assistant, and other organization leaders.

DEMO CAMPAIGN IS DISCUSSED

BY PAUL MARTIN

Associated Press Staff Writer Harrisburg, Aug. 1.—(P)—Leaders of the Democratic state organization meet here this afternoon to arrange a date when they believe President Roosevelt, now a pivotal state, to open their fall campaign.

The Keystone state organization went to the national convention at Chicago solidly for a third term for Roosevelt, and Pennsylvania delegates were instrumental in swinging the vice-presidential nomination to Secretary of Agriculture Henry A. Wallace.

They would like to see Wallace make a swing through the rural districts, with Roosevelt appearing for rallies at Harrisburg, Philadelphia or Pittsburgh.

Workman Is Instantly Killed When Hit by Piece From Emery Wheel

Claude A. "Brownie" Althoff, aged about 50 years, was instantly killed about 2:15 o'clock this afternoon at the plant of the Warren Axe & Tool Company on the East Side, when he was struck on the head by a large piece of an emery wheel which exploded while he was grinding an axe on it.

According to information given Coroner Ed C. Lowrey, who was called, Althoff, an edger at the plant, had no warning of the accident. The wheel suddenly exploded into three pieces, a large one striking him in the head.

The force of the blow threw Althoff about 12 feet across the shop floor. Fortunately, others who were working nearby were not hit by the flying pieces.

Althoff had worked at the plant about twelve years.

Besides his wife, he leaves a stepson, Milton Hawley, and relatives in York.

Funeral plans have not been made.

Numerous Prominent Frenchmen to Lose Their Citizenship

Berlin, Aug. 1.—(P via Radio)—A long list of prominent Frenchmen, reading like pages from France's pre-armistice whoos who, have been ordered deprived of their citizenship and their properties confiscated, the German wireless announced today.

The list, the first since the Petain regime decreed action against those who left France "without valid reasons" between May 10 and June 30, included the names of the internationally known Rothschild banking family. It was broadcast by the government station at Vichy and picked up here.

The two Rothschilds were Baron Edouard, head of the French branch of the family's far-flung banking operations, and Baron Maurice, a member of the French senate.

(Baron Maurice de Rothschild arrived in Montreal this week with a cousin, Baron Robert de Rothschild, the latter's wife and daughter, after having taken temporary refuge in Britain. Baron Edouard, his baroness and their daughter arrived in New York July 10 by Clipper plane.)

Bashore Summoned to Explain Examinations

Harrisburg, Aug. 1.—(P)—A legislative investigating committee today summoned Ralph M. Bashore, former secretary of labor and industry, to explain the method of conducting civil service examinations for jobs in the Unemployment Compensation Bureau during the previous Democratic administration.

Bashore also brought Robert Fitzgerald, his former administrative assistant, who directed the civil service procedure, into the hearing.

Senator C. Gilbert Wolfenden (R-Indiana), chairman of the committee, said: "We're trying to find out how the examinations were conducted, how the tests were prepared, and why some people claim they weren't given a chance to take them, or weren't given jobs in the bureau."

PICK-UP SERVICE DECISION TO BE REVEALED SOON

Washington, Aug. 1.—(P)—Air mail officials said today a decision on pick-up airmail service through six states probably would not be reached until next week.

They conferred yesterday and last night with officers of All-American Aviation, Inc., which operated the non-stop service in Pennsylvania, West Virginia and Ohio for a year on an experimental basis.

Postal officials said that the service was still somewhat in the experimental stage and "we have to move carefully because such airmail could quickly spread to many other parts of the country, and we want to be sure it would be financially practicable."

States in which All-American seeks to operate are New York, Pennsylvania, Delaware, Ohio, West Virginia and Kentucky. Post office officials said a suggestion that non-stop service be provided in New Jersey had been dropped by the company.

BLAST RUINS OF CAMDEN BLAZE

Camden, N. J., Aug. 1.—(P)—Firemen turned to dynamite today to blast down the fire-scarred walls of a paint factory and speed the search for seven persons missing in the \$2,000,000 blaze that destroyed a four-block area of midtown Camden.

Two were known dead from the flames which followed a series of explosions in the five-story R. M. Hollingshead Company plant.

Camden, N. J., Aug. 1.—(P)—While explosives experts were setting dynamite to blast down the fire-scarred walls of a paint factory, firemen today recovered the body of one of seven persons missing in the \$2,000,000 fire that destroyed a four-block area.

The body was badly burned and identity was not established immediately.

SHIP CARRYING THE WINDSORS SAILING TODAY

Lisbon, Portugal, Aug. 1.—(P)—The Duke and Duchess of Windsor, traveling simply as "Captain and Mrs. Wood," were to sail for New York aboard the American export liner Excalibur at 6 p. m. today (12 noon, EST). The ship is due in New York August 9.

En route to the Bahamas, where the Duke will take over his post as governor and commander-in-chief, the famous couple will make the trip aboard the 9,359-ton cargo liner with Major Gray Phillips, the Duke's secretary, and his two aides de camp, Captain George Wood and Captain Vyan Drury.

None of their household staff is expected to travel with the Duke and Duchess.

For the man who renounced kingdom and empire for "the woman I love" the trip will be in strange contrast to his previous visits to the United States—in 1919, when he went there as official good will ambassador and was greeted with one of Broadway's first post-war showers of ticker tape, and in 1924, when, as now, he traveled "incognito" and, except for a formal visit to President Coolidge, devoted all of his time to making the rounds of gay social functions on Long Island and elsewhere.

Also sailing on the Excalibur will be William Phillips, U. S. ambassador to Rome, who is going home for a brief vacation; Anthony J. Drexel Biddle, Jr., U. S. ambassador to Poland; John Cudahy, ambassador to the state house and senate.

HAZING OF CADET MAY CAUSE RESIGNATIONS

Philadelphia, Aug. 1.—(P)—A 17-year-old cadet's charges of "severe hazing" brought demands today for the resignation of two shipmates aboard the Pennsylvania schoolship Annals, and disciplinary action against 16 others.

The state navigation commission informed two first class cadets they must resign or be dismissed and reprimanded another for "attempting to suppress" an investigation into the charges. The others were short of their ratings and deprived for 30 days of shore leave privileges.

Names of the cadets were not announced.

Women of Distinguished American Ancestry New Owners of Official Communist Paper

New York, Aug. 1.—(P)—Three women of distinguished American ancestry today became the owners of the Daily Worker, heretofore the official organ of the Communist party in the United States.

A statement said the women had formed the Freedom of the Press Company, Inc., which had purchased the Daily Worker and the Sunday Worker, adding: "We are the sole stockholders of that company and the only persons responsible for its formation."

Communist party leaders William Z. Foster, chairman, and Earl Browder, general secretary, declared that as of today the newspaper ceases to be "the official central organ of the Communist party." At the same time, they pledged the new owners "whole-hearted" party support.

The new owners were listed as Mrs. Ferdinando Reed, 63, granddaughter of the founder of the famed Brattleboro Sanatorium, Brattleboro, Vt.; Mrs. Caro Lloyd Strobel, 81, native of Pekin, Ill., and a Vassar graduate, and Mrs. Susan H. Woodruff, 71, native of Tenafly, N. J., and an alumna of Smith College.

The women asserted in a statement they had formed the new publishing company in order to preserve the paper "as a medium of free expression in the interest of the working people of America."

OPERATING MANDATE DISOBEYED

Railroad Investigators Probing Crash Between Gasoline-Electric Coach and 73-Car Freight Train on Pennsylvania Railroad Tracks Near Akron During the Night, Say Doodlebug Crew Failed to Follow Orders

ONLY SURVIVORS IN HOSPITAL BADLY HURT

By The Associated Press

Akron, O., Aug. 1.—(P)—Railroad investigators today blamed an engineman's failure to follow operating orders for the fiery death of 43 persons in 1940's second major train wreck.

Officials said failure to sidetrack a gasoline-electric coach led it to crash head-on with a 73-car freight near here last night.

The steel coach quickly became a virtual furnace. Two members of the coach's crew and a trainman deadheaded leaped to safety. All others aboard burned to death, including five children.

The coach's single engineman, Thomas L. Murtough, 49, was blamed by L. M. Wolcott, Cleveland trainmaster for the Pennsylvania railroad, in whose single-track Hudson-Akron line the crash occurred. Murtough, seriously injured, was unable to tell his story.

Wolcott, watching crews clear away the wreckage, declared:

"The crew of the 'Doodlebug' (the gasoline coach) and the crews of the freight train had orders to meet at Silver Lake, one mile north of the scene, and wait for the freight to pass. Murtough should have taken his train onto the siding there. For some reason he did not go onto the siding."

J. F. Allenspaugh, Akron yardmaster, said his investigation also showed the "Doodlebug's" crew was at fault.

After a preliminary investigation, E. W. Smith, vice president of the railroad, expressed a similar view and said the coach's crew (Turn to Page Thirteen)

STATE G. O. P. HEAD CONFIDENT

Harrisburg, Aug. 1.—(P)—State Chairman James F. Torrance predicts Pennsylvania will give Wendell L. Willkie, the Republican nominee, a half million more votes than President Roosevelt in November.

"Pennsylvania is in very good shape to put on a bang-up campaign," Torrance told a meeting of Republican state legislators, and nominees for the state house and senate.

In 1936, Roosevelt's majority over Republican Alf M. Landon was 663,000. Two years later Arthur H. James won the gubernatorial election with 339,000 more votes than the Democratic candidate, Charles Alvin Jones.

The legislative candidates chose Speaker Elwood J. Turner as chairman, and Majority Leader Robert E. Woodside of the house, vice chairman, of a legislative campaign committee to work with county chairmen. These assemblymen were named to assist Turner and Woodside: John J. McKinney, Venango; George Cooper, Allegheny; Ira T. Fiss, Snyder; William Habbysshaw, Dauphin; Franklin Lichtenwalner, Lehigh; Thomas B. Stockham, Bucks; Harry E. Trott, Lancaster; Robert Boyd, Philadelphia, and Thomas Lyons, Mercer.

TO START WORK ON NEW LOBLAW STORE MONDAY

Ground will be broken next Monday for an addition to Warren's principal business section when workmen begin excavating for the new building to be constructed on Second avenue, between Market and Liberty streets, by the S. S. Kresge Company for the Loblaw Groceries.

Bids will be opened Saturday and work will begin as soon as the contracts are awarded.

The building will be located in the rear of the Kresge store and will be one-story of brick construction. There will be 51 feet of frontage on Second avenue, the store being 110 feet long.

The balance of the property, nearly 8,000 square feet, will be converted into a parking lot for Kresge and Loblaw customers. The brick barn, formerly a part of the Otis Hoffman property, will be razed.

When completed the new grocery will be one of the most spacious and most attractive stores in this city. The store front will be of Vitrolite in black and white, the Loblaw color scheme.

Three Cars Damaged In Wednesday Crash Near Old Clarendon

Three cars were badly damaged last evening shortly after six o'clock on the Old Clarendon road, two miles west of Clarendon, when two machines collided trying to avoid a parked car.

The accident occurred when a car driven by Ralph A. Valone, of Clarendon, struck another driven by Harry Fred Nye, of Dauphin, Pa., as they were passing the car of Curtis F. Sasserson, 114 Grant street, this city, parked on the right-hand side of the road. The Valone car was damaged to the extent of \$200 while the Nye machine's damage will amount to about \$250. The parked car was damaged to a lesser extent.

Private N. B. Johns, of the state motor police, who investigated, stated that he will file charges of reckless driving against Valone and illegal parking against Sasserson.

Former Pastor To Deliver Sermon At First Presbyterian

It was welcome news to his former parishioners and many other friends that Dr. Thomas S. Dickson, now pastor of the First Presbyterian church in York, would return to his former pulpit in the local church at that denomination on Sunday morning.

Dr. Dickson will speak on "Death or Deep Water," basing his sermon on the text "Launch out into the deep, and let down your nets for a draught."

Mr. and Mrs. Dickson, with two of their children, Frances and Douglas, are expected to arrive tomorrow to be the guests of Rev. and Mrs. E. P. Wroth and family, Fourth avenue.

Lacy, of Warren, were married in the 1850's and in 1868 with three sons, George, Barnett and Edward, went to Montana, where they took up a homestead near the edge of the present Yellowstone Park.

Dwight Allen remained there, as did one son, George. However, Barnett and Edwards subsequently returned to Warren.

A son of George Allen, Clarence E. Allen, also took up a homestead in Montana and at present has a large ranch at Paradise Valley, about 20 miles from the Gannett entrance to Yellowstone National Park.

Last summer, Jane and John Allen, daughter and son of Mr. and Mrs. Chester Allen, paid a visit to the Clarence Allen family in Montana, becoming the first of the "eastern" Allens to visit the "western" portion of the family since their grandfather returned east. Last fall a daughter of Clarence Allen, Naomi, paid a visit here.

Mr. and Mrs. John Allen are planning a trip to Montana and will leave Saturday by motor for a three weeks' visit to the west. During their trip they expect to visit Ranger Marler, whose findings they learned through a special dispatch to the Times-Mirror.

9 to 1**Cooling Breezes From the Northwest Bring Relief to Pennsylvania From Abnormal Heat**

By The Associated Press

Cooling breezes from the northwest brought welcome relief today to Pennsylvania, blistered by two weeks of abnormal heat that took 87 lives.

Temperatures dropped rapidly yesterday in most sections of the state and humidity readings fell under the dry, cool wind.

Throughout the nation rains followed by cooling winds also smashed the heat wave.

Some of the parched areas continued warm but generally relief reached most of the territory that had sweated under blazing sun and high humidity for two weeks.

The death toll stood at 1,002, of which 482 were caused by heat prostration and 520 by drowning.

Lightning killed scores of others. In Philadelphia the mercury

rose to 94 but the humidity dropped sharply.

Despite the more endurable weather the death list increased. Mrs. Bridget McGrath died at her home in Pittsburgh and Byron Garton, 51, collapsed at his job in the Westinghouse Electric and Manufacturing Company's Pittsburgh plant.

Dr. Ruth Webster Lathrop, 78-year-old pioneer Philadelphia woman physician, who collapsed from the heat, died Wednesday. At Potomac, Md., Raymond Heim, 22, of Auburn, drowned in Schuylkill Haven.

A St. Marys farmer died of the heat.

So far 44 persons have died from heat causes, 41 have drowned and two were killed by lightning.

Government forecasters predicted cooler weather would last until the weekend when the mercury would again climb.

**TO START WORK
ON NEW LOBLAW
STORE MONDAY**

Ground will be broken next Monday for an addition to Warren's principal business section when workmen begin excavating for the new building to be constructed on Second avenue, between Market and Liberty streets, by the S. S. Kresge Company for the Loblaw Groceries.

Bids will be opened Saturday and work will begin as soon as the contracts are awarded. The building will be located in the rear of the Kresge store and will be one-story of brick construction. There will be 51 feet of frontage on Second avenue, the store being 110 feet long.

The balance of the property, nearly 5,000 square feet, will be converted into a parking lot for Kresge and Loblaw customers. The brick barn, formerly a part of the Otis Hoffman property, will be razed.

When completed the new grocery will be one of the most spacious and most attractive stores in this city. The store front will be of Vitrolite in black and white, the Loblaw color scheme.

**Three Cars Damaged
In Wednesday Crash
Near Old Clarendon**

Three cars were badly damaged last evening shortly after six o'clock on the Old Clarendon road, two miles west of Clarendon, when two machines collided trying to avoid a parked car.

The accident occurred when a car driven by Ralph A. Valone, of Clarendon, struck another driven by Harry Fred Nye, of Dauphin, Pa., as they were passing the car of Curtis F. Sasserson, 114 Grant street, this city, parked on the right-hand side of the road. The Valone car was damaged to the extent of \$200 while the Nye machine's damage will amount to about \$250. The parked car was damaged to a lesser extent.

Private N. B. Johns, of the state motor police, who investigated, stated that he will file charges of reckless driving against Valone and illegal parking against Sasserson.

**Former Pastor To
Deliver Sermon At
First Presbyterian**

It was welcome news to his former parishioners and many other friends that Dr. Thomas S. Dickson, now pastor of the First Presbyterian church in York, would return to his former pulpit in the local church of that denomination on Sunday morning.

Dr. Dickson will speak on "Death or Deep Water," basing his sermon on the text: "Launch out into the deep, and let down your nets for a draught!"

Mr. and Mrs. Dickson, with two of their children, Frances and Douglas, are expected to arrive tomorrow, to be the guests of Rev. and Mrs. E. P. Wroth and family, Fourth avenue.

Lacy, of Warren, were married in the 1850's and in 1868 with three sons, George, Barnett and Edward, went to Montana, where they took up a homestead near the edge of the present Yellowstone Park.

Dwight Allen remained there, as did one son, George. However, Barnett and Edwards subsequently returned to Warren.

A son of George Allen, Clarence E. Allen, also took up a homestead in Montana and at present has a large ranch at Paradise Valley, about 20 miles from the Gardner entrance to Yellowstone National Park.

Last summer, Jane and John Allen, daughter and son of Mr. and Mrs. Chester Allen, paid a visit to the Clarence Allen family in Montana, becoming the first of the "eastern" Allens to visit the "western" portion of the family since their grandfather returned east. Last fall a daughter of Clarence Allen, Naomi, paid a visit here.

Mr. and Mrs. John Allen are planning a trip to Montana and will leave Saturday by motor for a three weeks' visit to the west. During their trip they expect to visit Ranger Marler, whose findings they learned through a special dispatch to the Times-Mirror.

**Cooling Breezes From the Northwest Bring
Relief to Pennsylvania From Abnormal Heat**

By The Associated Press
Cooling breezes from the northwest brought welcome relief today to Pennsylvania, blistered by two weeks of abnormal heat that took 87 lives.

Temperatures dropped rapidly yesterday in most sections of the state and humidity readings fell under the dry, cool wind.

Throughout the nation rains followed by cooling winds also smashed the heat wave.

Some of the parched areas continued warm but generally relief reached most of the territory that had sweated under blazing sun and high humidity for two weeks.

The death toll stood at 1,002, of which 482 were caused by heat prostration and 520 by drowning. Lightning killed scores of others.

In Philadelphia the mercury

rose to 94 but the humidity dropped sharply.

Despite the more endurable weather the death list increased. Mrs. Bridget McGrath died at her home in Pittsburgh and Byron Carlton, 51, collapsed at his job in the Westinghouse Electric and Manufacturing Company's Pittsburgh plant. Dr. Ruth Webster Lathrop, 78-year-old pioneer Philadelphia woman physician, who collapsed from the heat, died Wednesday. At Pottsville Raymond Helm, 22, of Auburn, drowned in Schuylkill Haven. A St. Marys farmer died of the heat.

So far 44 persons have died from heat causes, 41 have drowned and two were killed by lightning.

Government forecasters predicted cooler weather would last until the weekend when the mercury would again climb.

TIMES TOPICS**SCHOOL PAYMENTS**

Features of the game were home runs by Combs and Keely, of Endeavor, and Mitchell and Andrea, of Warren. The winning pitcher was Douglas and the losing pitcher Mitchell. Arrangements have been completed for a return game on Thursday when the Sodality will meet Endeavor at that place.

WRECK NEAR RUSSELL

A dairy truck was damaged considerably yesterday morning between Russell and Scandia when the driver lost control and the truck left the road, striking a large tree in front of the Arthur J. Fehman home. Private N. B. Johns, of the state motor police, investigated the crash and arrested the driver, Leroy E. Gregory, of Russell, who pleaded guilty to a charge of reckless driving when arraigned before Justice of the Peace Charles Clark.

ATTENDING FUNERAL

Among those present for the rites are Mrs. Paul Fisher, Warren; L. V. Russell, John and Herman Moll, of Russell, with Mrs. Jewett Bloomquist, of Jamestown, N. Y. Recalls Early Migration of Local
Family to Yellowstone Park Area**

Finding of an unique guest register which had been preserved nearly two-thirds of a century in near-boiling geyser water at Yellowstone National Park has resulted in recalling interesting history in the earlier days of one of Warren's best known families.

The unique register, discovered by Ranger Naturalist George Marler in the Old Faithful geyser basin, was written in pencil on small rocks and was kept up for a period of eight years back in the very earliest days of Yellowstone Park following its establishment in 1872.

On two of these rocks were names of former Warren residents, the late E. E. Allen and B. W. Allen. The former was the father of Chester Allen, Mrs. A. M. Lang-

hans and Mrs. Mildred Carter, who reside here.

The rocks, 16 in all, had been dropped in a small collecting bowl alongside the Turban geyser and were discovered by Marler under about a foot of sediment while he was cleaning the bowl. The names have been preserved from deterioration by the constant stream of near-boiling water which flows from the Turban geyser.

Oldest of the registrations is dated October 3, 1874. The stone containing the name of E. E. Allen had no date, but that of B. W. Allen bore the date, August 23, 1882.

Finding of the stones recalled to Chester Allen today the fact that his grandfather, Dwight Allen, of Jamestown, and Jane Bradley

TENTATIVE PROGRAM FOR MEMBERS OF LOCAL COMPANY AT MANEUVERS IN NEW YORK STATE IS REVEALED

The tentative program for the members of Company I, local Pennsylvania National Guard unit, during its three-week participation in the First Army maneuvers in northern New York state, was disclosed today by company officers. The program indicates that the guardsmen will be kept busy throughout the 21-day encampment.

This encampment will be the largest peacetime mobilization in the history of the country and will include approximately 100,000 men.

The local unit is recruited up to full strength, which includes four officers and 83 enlisted men, one additional officer having been commissioned this week in order to bring the company up to peace time strength in regards to officer personnel, it was pointed out.

Members of the company said they expect this year's camp to prove very interesting, as it will be the first training period held with the new streamlined divisions.

It was stated today that the members of Company I will entrain at 11:40 p. m. next Monday, instead of 10:40, as announced yesterday. From the detraining point at Lisbon, N. Y., the guardsmen will travel into camp by truck.

Prepared meals will be taken for breakfast and dinner on the trip. In addition to this, it was stated, the individuals may carry prepared lunches. These should be packed in shoe boxes and left at the armory not later than 8 p. m. on Monday, it was announced.

As the nights in the camp area are reported to be chilly, all men have been ordered to include in their equipment their woolen uniforms and overcoats. Mosquito bars, which are stretched over the bunks at night, are also being taken, although if the nights are cool enough for overcoats, it is a mystery to the boys how mosquitoes can survive.

Following is the camp schedule announced today:

August 5—Leave Warren, 11:40 p. m.

August 6—Travel and set up camp.

August 7—Small company problems.

August 8-9—Battalion exercise, regiment control.

August 10—Field inspection in morning; rest in afternoon.

August 11—Rest, church services.

August 12—Reinforced regimental exercises, brigade control.

August 13—Reinforced brigade exercises, division control.

August 17-18—Rest.

August 19-20-21-22—Army exercise.

August 23—Critique.

August 24—Break camp, leave for home station at 12 midnight.

The members of Company I will arrive back in Warren at 3:20 p. m. on Sunday, August 25. Upon their arrival here, the company will have dinner in a local restaurant.

A complete roster of the organization will be published later.

SENATOR GIVES PROMISE OF AID TO GET FACTORY

The following was released today by the Warren Chamber of Commerce:

In its efforts to secure authority from the War Department for the construction of a munition plant at Warren, the local Chamber of Commerce requested the cooperation of Senator James J. Davis, from whom a letter has just been received by the Chamber on the subject. Referring to the matter, the senator says, in part:

"I am well acquainted with the topographical and industrial features of the Warren district, all of which would make an advantageous site for any plant. I am taking pleasure in bringing the subject to the attention of the Advisory Commission of the Council of National Defense, and you may rest assured it will be a pleasure for me to cooperate in every way possible."

The Senator provided three names of procurement officers in Pittsburgh and recommended to H. W. Correll, the local Chamber's secretary, that he call on them, because, he states, "these officers usually make an investigation of all proposals and in turn make their recommendations to the department."

Senator Joseph Guffey has interested himself in this project, and it is stated by Mr. Correll, has promised to inform the Chamber at an early date relative to his actions in the matter.

Since the local secretary called last week at the office of the Ordnance Department officer in charge of this project, further inquiry has been received, indicating that interest in official circles is being maintained.

NATIONAL FORGE GETS CONTRACT FOR MUNITIONS

According to information received today from the National Defense Advisory Commission in Washington, contracts cleared by the Production Division of the commission between June 6 and July 17 included more than \$500,000 worth of work to be done by the National Forge and Ordnance Company at Irvine.

The Production Division clears all army and navy contracts of \$500,000 or more.

Items to be manufactured at the Irvine plant and their contract prices are: Gun barrel forgings, \$364,305.00; breech housing forgings, \$140,004.75; gun liner forgings, \$17,479.80.

The announcement also states that during the same period, the Struthers-Wells-Titusville Corporation at Titusville received a contract for breech housing forgings to cost \$128,221.25.

TENTATIVE PROGRAM FOR MEMBERS OF LOCAL COMPANY AT MANEUVERS IN NEW YORK STATE IS REVEALED

The tentative program for the members of Company I, local Pennsylvania National Guard unit, during its three-weeks participation in the First Army maneuvers in northern New York state, was disclosed today by company officers. The program indicates that the guardsmen will be kept busy throughout the 21-day encampment.

This encampment will be the largest peacetime mobilization in the history of the country and will include approximately 100,000 men.

The local unit is recruited up to full strength, which includes four officers and 83 enlisted men, one additional officer having been commissioned this week in order to bring the company up to peace time strength in regard to officer personnel, it was pointed out.

Members of the company said they expect this year's camp to prove very interesting, as it will be the first training period held with the new streamlined divisions.

It was stated today that the members of Company I will entrain at 11:40 p. m. next Monday, instead of 10:40, as announced yesterday. From the detraining point at Lisbon, N. Y., the guardsmen will travel into camp by truck.

Prepared meals will be taken for breakfast and dinner on the trip. In addition to this, it was stated, the individuals may carry prepared lunches. These should be packed in shoe boxes and left at the armory not later than 8 p. m. on Monday, it was announced.

All mail should be addressed as follows: Grade, name and organization, Army Post Office No. 28, Canton, N. Y. Example: Private First Class John A. Smith, Company I, 112th Infantry, Army Post Office No. 28, Canton, N. Y. As the nights in the camp area

are reported to be chilly, all men have been ordered to include in their equipment their woolen uniforms and overcoats. Mosquito bunks at night, are also being taken, although if the nights are cool enough for overcoats, it is a mystery to the boys how mosquitos can survive.

Following is the camp schedule announced today:

August 5—Leave Warren, 11:40 p. m.

August 6—Travel and set up camp.

August 7—Small company problems.

August 8—Battalion exercise, regiment control.

August 10—Field inspection in morning; rest in afternoon.

August 11—Rest, church services.

August 12—Reinforced regimental exercises, brigade control.

August 13—Reinforced brigade exercises, division control.

August 14—Reinforced brigade exercises, morning; rest in afternoon.

August 15-16—17th Division exercise, Third Corps control.

August 17-18—Rest.

August 19-20-21-22—Army exercise.

August 23—Critique.

August 24—Break camp, leave for home station at 12 midnight.

The members of Company I will arrive back in Warren at 3:20 p. m. on Sunday, August 25. Upon their arrival here, the company will have dinner in a local restaurant.

A complete roster of the organization will be published later.

Veteran Employee

Stuart Fisher Custer, 114 Seneca street, who today is observing the 35th anniversary of his employment by the Bell Telephone Company. A repairman, he has, during that period, repaired about 12,000 telephones, and has seen the number of telephones here increase from 946 to nearly 5,100. Mr. Custer became a Bell employee in 1905 and in June, 1907, was assigned to Warren as a repairman. He is a Mason and an Odd Fellow. A daughter, Miss Maxine Custer, is employed in the office of the company's district engineer here.

COLLISIONS FATAL

Lewistown, July 31—(P)—Leon Eisenbuth, 22, of near Milltown, died in a hospital Tuesday of injuries received in the collision of his wagon and a truck. State Motor Patrolman A. A. Rudville said Verdi Wise of Allentown drove the truck.

MAKING PLANS FOR CONVENTION HERE IN FALL

Plans for the semi-annual convention of the Odd Fellows Association of Northwestern Pennsylvania, which is to be held in Warren Saturday, October 12th, were discussed at a meeting held in the I. O. O. F. hall at Tidoute last evening and attended by representatives of the local committee as well as association officers and committee members. Those present from Warren were Howard Kinkead, H. J. Sandblade and Boyd Sanden.

Others in attendance were J. P. Langdon, Oil City, treasurer of the association; J. S. Sanborn, Titusville, secretary; entertainment committee, H. I. Sharp, Diamond; C. W. Fay, Titusville, and C. E. Morrow, Tidoute; Junior Lodge, M. C. Benton and G. L. Palmer, East Springfield.

According to the Warren men in attendance satisfactory progress was reported, with indications that the local convention will be the largest yet held by the association. Tentatively the program provides for afternoon and evening sessions, with a parade probably around four or five o'clock, consisting of bands and marching delegations, headed by the famous I. O. O. F. band representing the orphans' home at Meadville.

A meeting of the local committee will be held this evening in Odd Fellows hall.

SENATOR GIVES PROMISE OF AID TO GET FACTORY

The following was released today by the Warren Chamber of Commerce:

In its efforts to secure authority from the War Department for the construction of a munition plant at Warren, the local Chamber of Commerce requested the cooperation of Senator James J. Davis, from whom a letter has just been received by the Chamber on the subject. Referring to the matter, the senator says, in part:

"I am well acquainted with the topographical and industrial features of the Warren district, all of which would make an advantageous site for any plant."

"I am taking pleasure in bringing the subject to the attention of the Advisory Commission of the Council of National Defense, and you may rest assured it will be a pleasure for me to cooperate in every way possible."

The Senator provided three names of procurement officers in Pittsburgh and recommended to H. W. Correll, the local Chamber's secretary, that he call on them, because, he states, "these officers usually make an investigation of all proposals and in turn make their recommendations to the department."

Senator Joseph Guffey has interested himself in this project, and it is stated by Mr. Correll, has promised to inform the Chamber at an early date relative to his actions in the matter. Since the local secretary called last week at the office of the Ordnance Department officer in charge of this project, further inquiry has been received, indicating that interest in official circles is being maintained.

NATIONAL FORCE GETS CONTRACT FOR MUNITIONS

According to information received today from the National Defense Advisory Commission in Washington, contracts cleared by the Production Division of the commission between June 6 and July 17 included more than \$500,000 worth of work to be done by the National Forge and Ordnance Company at Irvine.

Items to be manufactured at the Irvine plant and their contract prices are: Gun barrel forgings, \$364,305.00; breech housing forgings, \$140,004.75; gun liner forgings, \$17,479.80.

The announcement also stated that during the same period, the Struthers-Wells-Titusville Corporation at Titusville received a contract for breech housing forgings to cost \$138,221.25.

RECALLS EARLY PLANE ACCIDENT

Probably through paragraphs referring to the incident that appeared in a feature column of this paper, the Kane Republican recalls that it was twenty years ago this week that G. R. Brandin, now manager of the Kane Manufacturing Company, escaped unhurt in one of the first airplane crashes to make the headlines in the district.

As manager of the Swainland Aircraft Corporation operating out of Jamestown, Mr. Brandin was flying in a plane piloted by Lieut. Leonard Swanson when the craft dived into a barn at Garland.

Swanson and Brandin were advertising a Warren old home week by dropping pamphlets in nearby communities, but made too good a job at Garland, the Kane paper says. Swanson escaped with bruises but it looked a lot worse to the excited villagers when they say Brandin, just as a gag, wheeled the pilot away from the wreck in a wheelbarrow he had found in the barn.

TOMORROW'S BABIES

If America wishes to continue as a first rate power, a Harvard sociologist says, the normal family must include four children instead of the "ideal" two. "At the present rate of births our population is destined for a decrease in numbers," Professor Carle C. Zimmerman says in a prepared address before the New England Conference on Tomorrow's Children. "If America wishes or can revert to a second rate power and gives up what are considered the 'American Ideals,' this may be accepted."

Of any normal 2,000 babies born, Zimmerman says, 940 will be females, of which 700 will grow up to marry and somewhat more than 600 will bear children. Thus, in order to sustain a population each must bear between three and four children on the average.

AMERICA WANTS THE TRUTH

Whatever history's final verdict on the causes of the collapse of France, we know this: there were many causes.

But one of them has not been much stressed up to now. And it is important.

It is simply this: the French people were not told the truth about their situation. The result was that, fed on a diet of "credulity, complacency, and imbecile optimism," they were not prepared for the worst when it began to happen. And so their morale crumbled.

A writer for the Manchester Guardian, formerly its Paris correspondent, has called attention to the havoc wrought by the French censorship on the morale of the people.

The censorship, he said, "did not merely suppress unpleasant truths, but it encouraged pleasant falsehoods." For instance, the censorship would not have passed, he said, any reference to the shortage of sugar in Paris. (Yet every Parisian knew it existed.) All articles suggesting that Italy and Spain might split off from Germany were eagerly passed. Anything that suggested that Italy or Spain were unfriendly to the allies was blue-penciled.

The result was that the French people lived in a pleasant fog of self-deception. And when military disaster came, most people were so stunned that they could scarcely believe it, let alone cope with it.

Britain hasn't been making that mistake thus far. From Churchill down, their leaders have cried calamity, preparing people for the worst. The British press has freely criticized the state of Britain's readiness.

The result: Britain has not yet shown any sign of cracking.

Mercury in thermometers took an over-night dip that brought relief and comfort to the great enjoyment of citizens.

Why not a little tree planting campaign to replace those that were blown over or damaged by last week's storm?

Warren will get a sample of farewell receptions to come when Company 1 leaves for camp next Monday evening.

STORIES IN STAMPS

ST. PIERRE and Miquelon, two small islands off the coast of Newfoundland, are in the news again as U. S. wonders what is to be the future status of French colonies in the Western Hemisphere. The islands' dog team stamp, above, of a 1938 series, is a favorite with young collectors.

St. Pierre and Miquelon are the last remnants of France's great North American empire. Jacques Cartier planted the French flag at Montreal in 1535. Champlain established a colony at Quebec in 1608, started the parade of French explorers, missionaries and traders into the interior. The explorations of La Salle, Marquette, Joliet and others gave France a claim on all the territory from the Alleghenies to the Rockies, from the Great Lakes to the Gulf.

France lost all her North American possessions in the French and Indian war of 1763. St. Pierre and Miquelon were jugged between France and England. Finally restored to France in 1814.

YEARS AGO IN WARREN

Interesting Items Taken From the Warren Evening Times

In 1920 In 1930

The Conewago Fishing Club departed this morning for Lake Taron, Ontario Province, Canada. This is the twenty-first annual pilgrimage to the isolated resort and they expect to remain a month in hunting and fishing. They have a special Pullman and baggage car on the New York Central.

The local committee recently named to educate employees in safe practices in the Renova Division of the Penna. is as follows: M. C. Bitter, supervisor, chairman; T. E. Harrington, yard master; P. D. Belknap, agent; O. H. L. Gumbert, gang foreman; L. P. Walters, gang foreman; C. R. Delaney, track foreman; W. P. Morris, patrolman.

A battle royal was staged in a Pennsylvania avenue restaurant for a few minutes this morning between the female employees of the establishment, and while it lasted it was a fine example of what the battle of Chateau Thierry must have looked like. The air was filled with flying papers and dishes.

Saturday Col. U. G. Lyons and Harry Logan entertained a number of refiners from Oil City, Titusville and other nearby towns to an old fashioned lamb roast at the Lyons summer home on the Conewago, above Russell.

There now appears to be no doubt but what Warren will be placed in the 40,000 class in the counties of the state, as a result of a checkup in the recent census.

The annual dinner of the United Commercial Travelers was held Saturday evening at the Warren Outing Club with about 460 in attendance.

The Deerhorn Fishing Club which has been making annual trips to Canada for over a score of years, is about to embark upon the annual excursion to Pike Lake. Chief A. J. Burken says this will be one of the largest in recent years.

According to L. L. Bishop two more forest fires were reported this afternoon from Sugar Run, above Kinzua, and Gulton Run, near Marienville, where flames are spreading rapidly, despite efforts of fire fighters.

A Washington Daybook

By JACK STINNETT

WASHINGTON — Out of almost every major event that occurs in or affects Washington comes a plethora of stories. Some are fantastic, some are trial balloons released by the powers-that-be to test public reactions, and some are merely ridiculous. Still others are a clear-minded analysis of a situation.

Wading through these stories daily, I try to pass along only those that have some basis in reason, interest or logic. Occasionally I run across one I can not tab, but which seems worth passing along. Of such is the following. It is interesting and reasonable, but whether it is somebody's pipe dream or has its roots in truth I haven't the slightest idea.

It is that President Roosevelt, if he is re-elected, has no intention of serving out a third term.

Some People Say—

THIS story, which has been kicked around for some time, is causing many an argument over coffee and crumpets.

Those who contend for it argue this way: The President was absolutely sincere in his statement that he did not wish to run again. Months ago, he told not only intimates but Republican Col. Frank Knox, who now is in his Cabinet, that he doubted if he could stand the strain of another four years in the White House.

Starting with the court fight, the attempted party purges of 1938, the neutrality act, and the thousands of problems arising out of the war in Europe and the new defense measures, these persons say, the President has been

through a lot at the tail end of his second term, not to mention the battles of the first. Look at what is ahead in the next few months. Is it any wonder he is tired and feels the need of rest and retirement?

And one thing more, they argue: Why did Roosevelt select Henry A. Wallace as his 1940 running mate? Admitted that Wallace, as Secretary of Agriculture and head of the Agricultural Adjustment administration, controls personnel and funds that affect millions of voters, wouldn't F.D.R., as the prime force behind it, have received all of those votes anyway? It doesn't detract from Wallace's ability as an economist, farm specialist and administrator to admit that he is no great shakes as a political campaigner, when one seemed desperately needed on the ticket this year. Then, why Wallace? Because, more than any other vice-presidential possibility, he could be depended upon to carry on, without disruption, the New Deal reforms and New Deal ideologies.

No Use Asking

THEFORE, the upholders of this theory conclude, when the world crisis is over, when the ship is again on even keel, Roosevelt, if he is elected, will relinquish the helm and take the long rest he so much needs.

But it wouldn't do any good to ask him. Just as announcement of a third term plans possibly would have weakened his position both in the capital and abroad, so would any such hint from him weaken the power and strength of the Presidency when the country needs it most.

Well, that's the story anyway.

RECALLS EARLY PLANE ACCIDENT

Probably through paragraphs referring to the incident that appeared in a feature column of this paper, the Kane Republican recalls that it was twenty years ago this week that G. R. Brandin, now manager of the Kane Manufacturing Company, escaped unhurt in one of the first airplane crashes to make the headlines in the district.

As manager of the Swanland Aircraft Corporation operating out of Jamestown, Mr. Brandin was flying in a plane piloted by Lieut. Leonard Swanson when the craft dived into a barn at Garland.

Swanson and Brandin were advertising a Warren old home week by dropping pamphlets in nearby communities, but made too good a job at Garland, the Kane paper says. Swanson escaped with bruises but it looked a lot worse to the excited villagers when they say Brandin, just as a gag, wheeled the pilot away from the wreck in a wheelbarrow he had found in the barn.

TOMORROW'S BABIES

If America wishes to continue as a first rate power, a Harvard sociologist says, the normal family must include four children instead of the "ideal" two.

"At the present rate of births our population is destined for a decrease in numbers," Professor Carle C. Zimmerman says in a prepared address before the New England Conference on Tomorrow's Children. "If America wishes or can revert to a second rate power and gives up what are considered the 'American Ideals', this may be accepted."

Of any normal 2,000 babies born, Zimmerman says, 940 will be females, of which 700 will grow up to marry and somewhat more than 600 will bear children. Thus, in order to sustain a population each must bear between three and four children on the average.

AMERICA WANTS THE TRUTH

Whatever history's final verdict on the causes of the collapse of France, we know this: there were many causes.

But one of them has not been much stressed up to now. And it is important.

It is simply this: the French people were not told the truth about their situation. The result was that, fed on a diet of "credulity, complacency, and imbecile optimism," they were not prepared for the worst when it began to happen. And so their morale crumbled.

A writer for the Manchester Guardian, formerly its Paris correspondent, has called attention to the havoc wrought by the French censorship on the morale of the people.

The censorship, he said, "did not merely suppress unpleasant truths, but it encouraged pleasant falsehoods." For instance, the censorship would not have passed, he said, any reference to the shortage of sugar in Paris. (Yet every Parisian knew it existed.) All articles suggesting that Italy and Spain might split off from Germany were eagerly passed. Anything that suggested that Italy or Spain were unfriendly to the allies was blue-penciled.

The result was that the French people lived in a pleasant fog of self-deception. And when military disaster came, most people were so stunned that they could scarcely believe it, let alone cope with it.

Britain hasn't been making that mistake thus far. From Churchill down, their leaders have cried calamity, preparing people for the worst. The British press has freely criticized the state of Britain's readiness.

The result: Britain has not yet shown any sign of cracking.

Mercury in thermometers took an over-night dip that brought relief and comfort to the great enjoyment of citizens.

Why not a little tree planting campaign to replace those that were blown over or damaged by last week's storm?

Warren will get a sample of farewell receptions to come when Company I leaves for camp next Monday evening.

YOUR NATION'S CAPITOL

By Bruce Catton
The Times-Mirror Washington Correspondent

FDR'S "AMATEUR POLITICIANS ARE COMPLETING PURGE"

Washington, August 1—Until the Democrats pick a new chairman for their national committee to replace the irreplaceable Jim Farley, it will not be possible to say just how far the "amateur politician" management which put over the third term idea will be continued in the campaign.

Meanwhile, it ought to be noticed that Mr. Roosevelt's amateurs have done fairly well by themselves despite the fact that they have made a lot of the professionals pretty sore.

The line-up of the Democratic party today is unusual, in that effective control lies pretty much in the hands of men like Harry Hopkins and the brain-trusters, Boss-Mayors Kelly and Hague are useful, of course, and such senate veterans as Barkley and Byrnes are in there pitching all the time. But the big decisions are all being handed down through Hopkins and his crowd. And for all their inexperience and lack of tact, the Hopkins group is getting exactly what it wants and making political veterans like Paul McNutt, Sam Rayburn, Carter Glass, Bennett Clark, and Speaker Bankhead take it and like it.

As a matter of fact, the New Dealers rather surprise themselves by the extent of their success. A Roosevelt-Wallace ticket, a new national chairman to be named by the New Deal, complete defeat for the Garnerites and the Wheelerites, no compromise anywhere along the line—this simply is more than the New Dealers themselves had counted on.

As a result, the attempt to rationalize the Chicago program is only now being made.

One explanation, beginning to appear is that whether the party wins or loses in November is actually less important than the fact that the 1938 "purge" has now been completed. According to this theory, the way has finally been paved for making the Democratic party in effect, if not in name, a real farmer-labor party.

The farmer part of it comes in with the triumph of Secretary Wallace—who, incidentally, didn't himself know the president had picked him as a running mate until about 12 hours before the nomination. The labor party of course comes in with Roosevelt himself. Most of the important C. I. O. leaders are in line, and John L. Lewis himself is apparently preparing to swing into the column once more, despite his harsh words a few months ago.

However, the fact remains that the beginnings of a bad party split were made at Chicago. Healing that split stands as the great item on the party's immediate program. Garner is probably gone for good, though much of his following can probably be wooed back into the fold if suitable harmonizing measures are taken. The much-talked-of bolt of "Wilkie Democrats" so far hasn't taken away any important Democrats, but it is likely to before long unless something is done. And it is here that the New Dealers are going to have to take counsel with the more experienced party leaders—the men like Byrnes, Bankhead, Barkley, Harrison, and Wagner—if the party is to avoid real trouble.

Otherwise the present tentative "inner circle" analysis of what

The Conewango Fishing Club departed this morning for Lake Talon, Ontario Province, Canada. This is the twenty-first annual pilgrimage to the isolated resort and they expect to remain a month in hunting and fishing. They have a special Pullman and baggage car on the New York Central.

A battle royal was staged in a Pennsylvania avenue restaurant for a few minutes this morning between the female employees of the establishment, and while it lasted it was a fine example of what the battle of Chateau Thierry must have looked like. The air was filled with frying pans and dishes.

Saturday Col. U. G. Lyons and Harry Logan entertained a number of refiners from Oil City, Titusville and other nearby towns to an old fashioned lamb roast at the Lyons summer home on the Conewango, above Russell.

There now appears to be no doubt but what Warren will be placed in the 40,000 class in the counties of the state, as a result of a checkup in the recent census.

The annual dinner of the United Commercial Travelers was held Saturday evening at the Warren Outing Club with about 160 in attendance.

In 1930

The dedication plans for the Warren Airport are shaping rapidly, entailing a vast amount of work on the part of every citizen. It is a foregone conclusion that this will be the most elaborate celebration in the history of the county.

The local committee recently named to educate employees in safe practices in the Renovo division of the Pennsy is as follows: M. C. Bitner, supervisor, chairman; T. E. Harrington, chairman; P. D. Belknap, agent; O. H. I. Overturf, gang foreman; L. P. Walters, gang foreman; C. R. Delaney, track foreman; W. F. Merritt, patrolman.

The Deerpark Fishing Club which has been making annual trips to Canada for over a score of years, is about to embark upon the annual excursion to Pine Lake. Chief A. J. Burhen says this will be one of the largest in recent years.

According to L. L. Bishop two more forest fires were reported this afternoon from Sugar Run, above Kinzua, and Gulton Run, near Marienville, where flames are spreading rapidly, despite efforts of fire fighters.

France Won—and Lost Vast American Empire

ST. PIERRE and Miquelon, two small islands off the coast of Newfoundland, are in the news again as U. S. wonders what is to be the future status of French colonies in the Western Hemisphere. The islands' dog team stamp, above, of a 1938 series, is a favorite with young collectors.

St. Pierre and Miquelon are the last remnants of France's great North American empire. Jacques Cartier planted the French flag at Montreal in 1535. Champlain established a colony at Quebec in 1603, started the parade of French explorers, missionaries and trappers into the interior. The explorations of La Salle, Marquette, Joliet and others gave France a claim on all the territory from the Alleghenies to the Rockies, from the Great Lakes to the Gulf.

France lost all her North American possessions in the French and Indian war of 1763. St. Pierre and Miquelon were juggled between France and England, finally restored to France in 1814.

RUBBER SEALS HOLES

Modern highways use rubber as filler between the joints of a concrete road. The older method of using asphalt gradually is growing obsolete because the asphalt does not recede into a hole after it has expanded, and forms a ridge on the road.

MACHINE TO BREAK EGGS

Used in factories where whites and yolks are canned separately, a special egg-breaking machine can break and separate 3600 eggs an hour. Only 640 an hour could be broken by hand by skilled labor.

A Washington Daybook

By JACK STINNETT

WASHINGTON—Out of almost every major event that occurs in or affects Washington comes a plethora of stories. Some are fantastic, some are trial balloons released by the powers-that-be to test public reactions, and some are merely ridiculous. Still others are a clear-minded analysis of a situation.

Wading through these stories daily, I try to pass along only those that have some basis in reason, interest or logic. Occasionally I run across one I can not tab, but which seems worth passing along. Of such is the following. It is interesting and reasonable, but whether it is somebody's pipe dream or has its roots in truth I haven't the slightest idea.

It is that President Roosevelt, if he is re-elected, has no intention of serving out a third term.

Some People Say—

THIS story, which has been kicked around for some time, is causing many an argument over coffee and crumpets.

Those who contend for it argue this way: The President was absolutely sincere in his statement that he did not wish to run again. Months ago, he told not only intimates but Republican Col. Frank Knox, who now is in his Cabinet, that he doubted if he could stand the strain of another four years in the White House.

Starting with the court fight, the attempted party purges of 1938, the neutrality act, and the thousands of problems arising out of the war in Europe and the new defense measures, these persons say, the President has been

through a lot at the tail end of his second term, not to mention the battles of the first. Look at what is ahead in the next few months. Is it any wonder he is tired and feels the need of rest and retirement?

And one thing more, they argue: Why did Roosevelt select Henry A. Wallace as his 1940 running mate? Admitted that Wallace, as Secretary of Agriculture and head of the Agricultural Adjustment administration, controls personnel and funds that affect millions of voters, wouldn't it all, have received all of those votes anyway? It doesn't detract from Wallace's ability as an economist, farm specialist and administrator to admit that he is no great shakes as a political campaigner, when one seemed desperately needed on the ticket this year. Then, why Wallace? Because more than any other vice-presidential possibility, he could be depended upon to carry on, without disruption, the New Deal reforms and New Deal ideologies.

No Use Asking

THEREFORE, the upholders of this theory conclude, when the world crisis is over, when the ship is again on even keel, Roosevelt, if he is elected, will relinquish the helm and take the long rest he so much needs.

But it wouldn't do any good to ask him. Just as announcement of his third term plan possibly would have weakened his position both in the capitol and abroad, so would any such hint from him weaken the power and strength of the Presidency when the country needs it most.

Well, that's the story anyway.

HOW U. S. AGE GROUPS LINE UP FOR PROPOSED MILITARY SERVICE

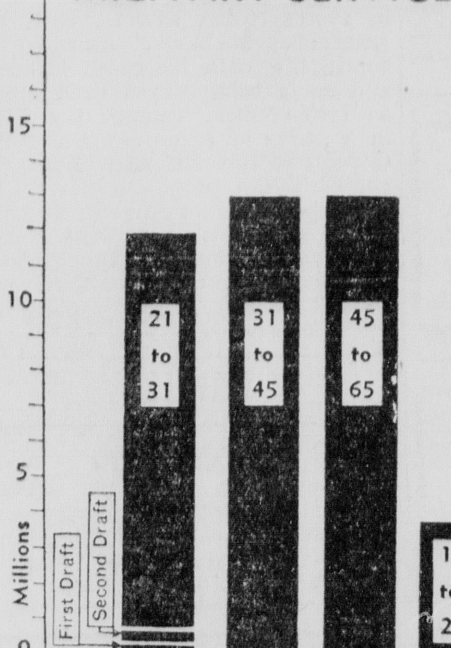

Chart shows age-group separation of men available for service under the proposed Burke-Wadsworth compulsory military training bill. Measure would require registration of about 42 million men between 18 and 64. If enacted, 400,000 men would be drafted for training by fall, 400,000 more the following spring. In the World War about 3 million men were drafted for active service out of 24 million registered.

MELLON MANSION IS DONATED TO COLLEGE

Pittsburgh, Aug. 1.—(P)—The
\$750,000 mansion of the late An-
drew Mellon and seven acres of
land were given to the Penn-
sylvania College for Women, whose
picturesque nine-acre campus ad-
joins the Mellon estate in the city's
fashionable east end.
Paul Mellon donated the prop-
erty in memory of his father, Pitts-
burgh financier, three-times secre-
tary of the treasury and ambas-
sador to the court of St. James.
The elder Mellon was a trustee of
the institution, one of the nation's
finest liberal arts colleges for women.
It has 325 students.
The 30 room residence, which is
equipped with an indoor swimming
pool, bowling alleys and tennis
courts, will be used for the study
of art, music and literature.

FARM NEWS

Short Course Given—A five-day
course in receiving, weighing,
sampling, testing, and studying of
dairy products will be given by
the department of dairy husband-
ry at the Pennsylvania State Col-
lege, starting at 10 o'clock Mon-
day morning, August 5. A repre-
sentative of the Milk Control Com-
mission will hold an examination
August 10 for those desiring to ap-
ply for a certificate as tester.

Scab Found on Wheat—From 5
to 10 per cent scabby wheat heads
have been found in many fields in
the state this year, according to
plant pathologists of the Pennsylv-
ania State College. While wheat
from infected fields may be clean-
ed and treated for use as seed, it
is preferable to sow seed from
scab-free fields.

Ryegrass Not a Weed—There is
no danger of ryegrass used as a
cover crop becoming a weed later,
say agronomists of the Pennsylv-
ania State College. Ryegrass can
reproduce only by seed. It has a
fibrous root system without run-
ners.

Cultivate Shallowly—Since vege-
tables do not develop deep root
systems in a season like the pres-
ent, when rains are plentiful and
timely, vegetable gardening spe-
cialists of the Pennsylvania State
College remind gardeners to prac-
tice shallow cultivation.

Prevent Cannibalism—Where
turkeys have the cannibalism vice,
the trouble may be controlled by
feeding coarse ground mash or pel-
lets, finely chopped green feed, and
by giving confined turkeys plenty
of space, say Penn State poultry
specialists.

Keep Dairy Sire Healthy—Free-
dom and exercise are of prime im-
portance in keeping the dairy herd
sire in good breeding health, ac-
cording to dairy specialists of the
Pennsylvania State College.

MELLON MANSION IS DONATED TO COLLEGE

Pittsburgh, Aug. 1.—(P)—The \$750,000 mansion of the late Andrew Mellon and seven acres of land were given to the Pennsylvania College for Women, whose picturesque nine-acre campus adjoins the Mellon estate in the city's fashionable east end. Paul Mellon donated the property in memory of his father, Pittsburgh financier, three-times secretary of the treasury and ambassador to the court of St. James. The elder Mellon was a trustee of the institution, one of the nation's finest liberal arts colleges for women. It has 325 students. The 30-room residence, which is equipped with an indoor swimming pool, bowling alleys and tennis courts, will be used for the study of art, music and literature.

The British constitution is an unwritten, indefinite body of legal rules and principles, partly acts of Parliament, and partly results of judicial decisions.

FARM NEWS

Short Course Given—A five-day course in receiving, weighing, sampling, testing, and studying of dairy products will be given by the department of dairy husbandry at the Pennsylvania State College, starting at 10 o'clock Monday morning, August 5. A representative of the Milk Control Commission will hold an examination August 10 for those desiring to apply for a certificate as tester. **Scab Found on Wheat**—From 5 to 10 per cent scabby wheat heads have been found in many fields in the state this year, according to plant pathologists of the Pennsylvania State College. While wheat from infected fields may be cleaned and treated for use as seed, it is preferable to sow seed from scab-free fields. **Ryegrass Not a Weed**—There is no danger of ryegrass used as a cover crop becoming a weed later, say agronomists of the Pennsylvania State College. Ryegrass can reproduce only by seed. It has a fibrous root system without runners.

Cultivate Shallowly—Since vegetables do not develop deep root systems in a season like the present, when rains are plentiful and timely, vegetable gardening specialists of the Pennsylvania State College remind gardeners to practice shallow cultivation. **Prevent Cannibalism**—Where turkeys have the cannibalism vice, the trouble may be controlled by feeding coarse ground mash or pellets, finely chopped green feed, and by giving confined turkeys plenty of space, say Penn State poultry specialists.

Keep Dairy Sire Healthy—Freedom and exercise are of prime importance in keeping the dairy herd sire in good breeding health, according to dairy specialists of the Pennsylvania State College.

East Hickory

East Hickory, July 31—Members from Kellettville, and the local Womens' Temperance Union, met at the home of Mrs. Will Watson at Endeavor for a picnic dinner and program last Wednesday. The hostess had arranged a long table under the trees, and after a delicious meal, the meeting was held on the porch, making an ideal location for the warm day. Among the members present from Kellettville, was Mrs. Pratt, who with her family expect to move soon into the Stiles house.

Miss Leona and Miss Ellen Bowman were hostesses Friday at a luncheon given at their home, for Tidoute friends, with their nieces Mrs. Crawford of Rochester and Mrs. Schmelz of Pittsburgh, also present.

The storm of Friday afternoon, was unusually severe in this locality, with fruit and shade trees uprooted and damaged by broken limbs. Why Not Serve a Souffle For That "One Hot Dish," Inquires Friendly Food Expert, Mrs. Mabel Bowen

Dear Friends in Warren: Crisp, cold salads and colorful vegetable plates are much in the news these days, but the wise homemaker knows that every warm weather menu should include at least one hot dish.

It is true that the vegetable plate may include a plump baked potato, broken open and dotted with butter and seasonings. Crisp bacon may join with buttered spinach and pickled beets for color. But vegetable plates may grow monotonous, even with different combinations, and the temptation is to offset humidity with a menu like this: Jellyed soup, cold meat, mixed salad, iced tea or coffee, chilled fruit, or mixed fruit cocktail.

An ideal solution of the "one hot dish" that combines delicacy with nourishment is a souffle. A luscious, puffy-proud souffle is a real treat, and justly serves as the main dish for luncheon or dinner. The

one drawback on featuring this dish for guest occasions is that it must be served immediately when it is done. The family will wait, but not the souffle, for it will fall dismally if it stands too long before serving.

Many a homemaker who qualifies as an excellent cook hesitates to produce a souffle. Yet one or two simple precautions actually eliminate guesswork.

Naturally the ingredients must be fresh, with the accent on the eggs. The whites should be whipped very stiffly. When cheese is used, make sure that it is not strong or "nippy."

Correct baking is the real secret of success. The souffle must be baked in a pan of hot (not boiling) water in a moderately slow oven until the top is springy to the touch. Occasionally a recipe specifies 350 degrees, but a 325-degree oven is preferable. A cheese souffle is best baked at the lower temperature.

In addition to the touching-the-top test, the souffle will shrink a trifle from the baking pan when done, and will be golden-brown in color. Unmold cautiously on a heated dish and serve immediately.

Quick-cooking tapioca gives extra body in a number of souffles, including the cheese. Finely chopped spinach may be united with cheese, eggs and white sauce for a summery souffle. Fish souffle is an excellent luncheon choice, and left-over chicken may be minced for the mainstay of an extra-special dish. In a chicken souffle recipe, either salmon or tuna may be substituted. Cheese and tomato souffle is another newcomer, and corn souffle is popular, since it may be prepared with fresh or canned corn. Fresh corn should be grated, so that milky pulp, rather than kernels, is added.

Of course, the sweet souffles are almost endless in variety, favorites being chocolate, lemon, custard and chestnut. A mixture of fruit pulp lends piquant flavor.

Salmon Souffle: Two tablespoons butter, two tablespoons flour, one-half teaspoon each salt and celery salt, one-half cup milk, three egg yolks, one cup cooked or canned salmon, two teaspoons lemon juice, dash paprika, three egg whites, stiffly beaten. (Six servings.)

Melt butter, stir in flour and seasonings. When well blended, slowly add milk, stirring constantly over low heat until mixture thickens and boils. Remove from heat and stir in well-beaten egg yolks. Fold in salmon. Cool. Finally fold in stiffly beaten egg whites. Pour in buttered baking utensil, using one and one-half quart size, or larger. Bake in a moderate oven twenty to twenty-five minutes. (Note: This takes a warmer oven than the more delicate cheese souffle.)

Here is a simple, dependable recipe for Cheese Souffle:

Three tablespoons quick-cooking tapioca, one cup milk, one cup grated cheese, three egg yolks, three egg whites, one teaspoon salt. (This quantity serves four.)

Add tapioca to milk. Cook in double boiler 15 minutes, or until tapioca is clear, stirring frequently. Add cheese and stir until melted. Cool. Add egg yolks and mix well. Fold in egg whites. Bake in buttered baking pan in a 350 degree oven 50 minutes. If individual servings are baked, they should be done in 30 minutes.

In preparing a chicken souffle, chicken stock may replace milk, or one cup of mushroom soup may be used for variety. Mushrooms are a happy accompaniment for this dish, either as sauce or vegetable. Next in choice is creamed asparagus.

Surprise the family with a souffle today!

MRS. MABEL BOWEN.

FRANCE CLAMPS DOWN ON MOST HATED CITIZEN

Georges Mandel... most hated and best-feared man of France.

By MILTON BRONNER
NEA Service Staff Correspondent
Many a French politician who formerly trembled at mention of Georges Mandel, probably threw his hat in the air when the Hitlerized Petain government of France announced a "judicial investigation" into roles played by former Premier Daladier and some of his ministers in the military catastrophe which brought France low.

For Georges Mandel, one of those ministers, is probably the most-feared and best-hated man in all France because he knows too much. He has—or had—a most complete file on the public and private lives of every French politician.

When Clemenceau in the last years of the World War became premier, Mandel went along as his private secretary. Clemenceau not only pushed the war-making of his country, but he squelched the traitors and almost-traitors. Mandel was his right hand man in this.

It was then, with Clemenceau's almost totalitarian power in back of him, that Mandel gathered his dossier on all the Frenchmen in public life. The dossiers not only had the life stories of the men, but little side chapters about how and where they made their money, their peccadilloes, their "sweeties," all the things they wished most secret.

Mandel never had to use these dossiers. He never threatened. He never bullied. People just fought shy of attacking him and his boss, because they wanted sleeping dogs to keep on sleeping.

In 1938 Daladier made Mandel minister of colonies and he held the same post in the Reynaud cabinet.

Right now the most-hated and best-feared man of France is in a pretty tough spot.

Like the umpire in a baseball game, the tournament director seldom gets a chance to play bridge. National tournament directors of the American Contract Bridge League, however, are all fine players.

George W. Beynon, field secretary of the A. C. B. L. and director of most of the league's tournaments in the south and mid-west, recently executed an unusual Bath Coup. This play is generally made on the opening lead, but in this case at trick two. By looking ahead, Beynon assured his contract.

The opening lead was won with the king of hearts and West returned the king of clubs. This trick could have been won in dummy with the ace, but declarer had to knock out the ace of diamonds, and if East held this card, he could lead through dummy's jack-six of clubs and West would make both the queen and ten.

Beynon, therefore, refused to win the trick, playing the six-spot. Now, regardless of West's return, the contract could not be defeated.

A diamond was played, East won with the ace and returned a club. The ace in dummy won, trumps were picked up and the other losing club discarded on the good diamond.

EXPENSIVE PARKING
Pittston, Pa., Aug. 1.—(P)—The overtime parking charge against Israel Eisner, of Scranton, added up today to a total of \$50 fine and \$32.50 cost.

Alderman Michael A. Grace assessed the fine and said Eisner ignored summons to appear for a hearing. Most of the costs, he added, would go to cover expenses of sending a constable to Scranton on three occasions trying to locate Eisner.

ENLARGED KNOX BAND TO OFFER CONCERT SUNDAY

The many music lovers in this section will again have an opportunity to hear one of the largest bands in the entire area Sunday afternoon, at 2:30 o'clock, Standard Time, when the Knox Glass Associates Band will give a concert at Wildcat Park, Ludlow.

A number of new pieces have been added to the band, and it now consists of 210 musicians attired in resplendent gold and black uniforms. The band is directed by Prof. I. N. Huffman, who has had much experience not only as a teacher but also as a member of some very well known bands. Mr. Huffman has been highly complimented on the excellent band which he has developed and for the fine concerts they render.

The band is made up of employees from Knox, Parker, Marienville, Oil City and Sheffield factories of the Knox Glass bottle group. Immediate members of employees' families are also eligible. Each factory has its own individual band, and the most advanced members of each band are brought together on special occasions to present public concerts.

Wildcat Park affords plenty of parking space, a beautiful setting for these concerts and the vast facilities of the park for a large number of people to enjoy picnics, swimming, tennis and other activities have made this an annual event for the people from a wide area. To go to Ludlow and make a full day of this musical offering. The only charge is the regular 10c park maintenance fee.

Besides the numbers by the entire group, special solo numbers will be included on the program.

and Mrs. Dean Mickleson, and Mrs. Mira and Miss Geraldine McLaugh- Roy Ruhlmanns, in Warren. , county, England.

Casual Slaughters

By VIRGINIA HANSON

YESTERDAY: Mimi tells how Sandra held over her head an innocent incident which Sandra could distort and make the upright Colonel believe. Sandra may have used similar tactics to force Jeff to marry her.

No Question of Staying

THE Colonel explained to me with cold contempt that he had charged Jeff with murder, that Jeff would inherit by Sandra's death.

"But surely you don't think that of Jeff—Why, you said he was like a son to you!"

"If he were actually my son it could make no difference under these circumstances. Any man who would kill a lovely young girl—a girl he had been fortunate enough to win as his bride—"

I remembered that he would hear nothing against Sandra. Yet he was ready to believe this of Jeff! The little flame of resentment that Mimi's story had kindled in my mind, fed by my own sense of angry guilt, flared out in reckless speech.

"Lovely young girl!" I said hotly. "What do you know about her? If you weren't so blind, so sure of yourself, this thing would never have happened. It's all your fault, all of it! Marry a lovely young girl yourself and treat her as if she were a housekeeper! Put yourself on the back because you rescued her from starvation—and then starve her for a little love and understanding! Did you ever stop and look at your wife and see how unhappy she is? Have you ever asked her what was the matter, encouraged her to talk to you? Or have you snubbed her every time she gave you a human emotion until she's afraid to tell you when she's in trouble—afraid to tell you that Sandra was ruining your daughter's life with a vicious lie she had trumped up about her, Mimi! Afraid you wouldn't believe your own wife, that you'd sit in judgment on her as you've just done on Jeff."

It's a pity I didn't burst into tears sooner, before I had said all there was to say. He seemed incapable of doing anything to stop me. His face was the color of the overworked tomato; his eyes looked like green marbles about to roll down his cheeks. His whole attitude suggested that of a man trapped with a raging tiger.

I ran out of the room before he could recover his senses and took refuge in my room. From behind my closed door I heard him, presently, tramp heavily up the stairs and knock at his wife's door.

It was a warm night, but I was having a chill. With buckling knees I stumbled about the room, found my hat and my pocketbook, picked up the overnight case and, closing my door behind me so that they would not miss me, tottered as quietly as I could down the stairs. There was no question now of my staying under that roof.

As I opened the front door I thought once, vaguely, of Fringy. I had gone to the library with that one additional bit of information and I had not told it. But I would not have gone back now if I had known that Fringy himself, grown dark and dreadful and menacing, was lying in wait in the shrubbery to make me a third victim.

I could not go back. I had thrown the gauntlet in God's face, and hell would be a better place for me.

A Lifetime

AS THE distance between me and Colonel Pennant widened I stopped shivering and my step grew firmer. But I knew I had done for myself forever as far as Fort Michigan was concerned. I would pack tonight, and the first train in the morning would take me back to Chicago. I only hoped my rashness would not get Adam into trouble.

It was dusky, about the hour at which the carriage had arrived last night. It was only last night? I seemed to have lived a lifetime during those twenty-four hours. I shivered again and glanced over my shoulder.

The post was very quiet. Lights burned behind drawn shades along the row, but there drifted out no sound of light voices, no laughter. In unison these people were paying their respects to the dead as last night they had paid them to the living.

There were lights in the chapel, too. Thursday night. Did they have prayer meeting on an army post?

But as I approached, the lights suddenly went out and I heard the opening and closing of the heavy oak door. A little hurrying figure came down the walk toward me.

"Good evening," intoned a familiar voice. "Oh, is it you, Miss Kay? I'm afraid my eyes are not yet accustomed to the dim light."

"Good evening, Chaplain Henry. Have you been conducting services?"

"No, no. Merely attending to my own devotions." He sighed heavily and, believing me of the light case, fell into step beside me. "This unhappy affair has shocked me deeply, as of course it has everyone on the post."

"But you had known her a long time, hadn't you?" I felt a surge of sympathy. Sandra had been his only friend on the post—the only one who hadn't laughed at him.

"Since she was a mere child. It was my unhappy duty to conduct the service for her father and mother. A very sad affair. The lovely wife died of pneumonia; the husband, inconsolable, committed suicide. And now it falls to my lot to read the service over their only child."

"Where will the body be sent?"

"To San Antonio, where her own father and mother as well as her foster father and mother lie buried. What a succession of tragedies in those two families!"

We went up the broad front steps of the club, and he fumbled the screen door open. The light from the lounge streamed out, and I saw that he was carrying a book in his white-gloved hand.

He followed me in, set down my dressing case and slipped the book face down on a table, but not before I had seen the lurid jacket and the title, *Come Back, My Heart*.

"Mrs. Bridewell asked me to get her something," he said apologetically. "Have you patronized our small lending library in the basement of the church?"

"I didn't even know there was one."

His face, I noticed, was not quite so repulsive looking. If he could manage not to get another attack he might look almost human in another week.

The club orderly, passing through from the bar to the kitchen regions, stopped when he saw us.

"There's some mail for you," Miss Cornish. I was fixing to bring it around to the colonel's quarters as soon as I go off duty. But since you're here I'll get it for you." He vanished.

"Would you like me to put the suitcase in your room?" the chaplain asked while we waited. "Or perhaps you're not staying there?"

"No. Just leave it here, thank you," I said evasively. "I'll speak to Mrs. Bridewell."

Rejected Manuscript

THE orderly reappeared with the mail. I took it from him and muttered something uncomplimentary as I saw that there was nothing from Adam.

"Not bad news, I trust," the chaplain asked anxiously.

"No, just not good. A rejected manuscript and a letter from the same people. They were in an unpleasant hurry about it, I must say."

He tut-tutted a couple of times while I thrust the letter, unread, into my purse. Then he came out with some bright remark about it at first, you don't succeed, or words to that effect.

The orderly, lingering, said, "Too bad about that young lady," and added fervently, "I'm glad I don't sleep here!"

"I understand the, ah, weapon was taken from the kitchens here," the chaplain asked with what I could not help considering ghastly interest.

"My guess it was. The cook said her best butcher knife was missing, and she hasn't got it back yet. She was pretty sore when she tried to cut the ham this morning."

I bit back a hysterical impulse to tell him he should speak to the colonel—tell him the cook wasn't a cook if he had a knife. I felt that I would want a vegetarian breakfast.

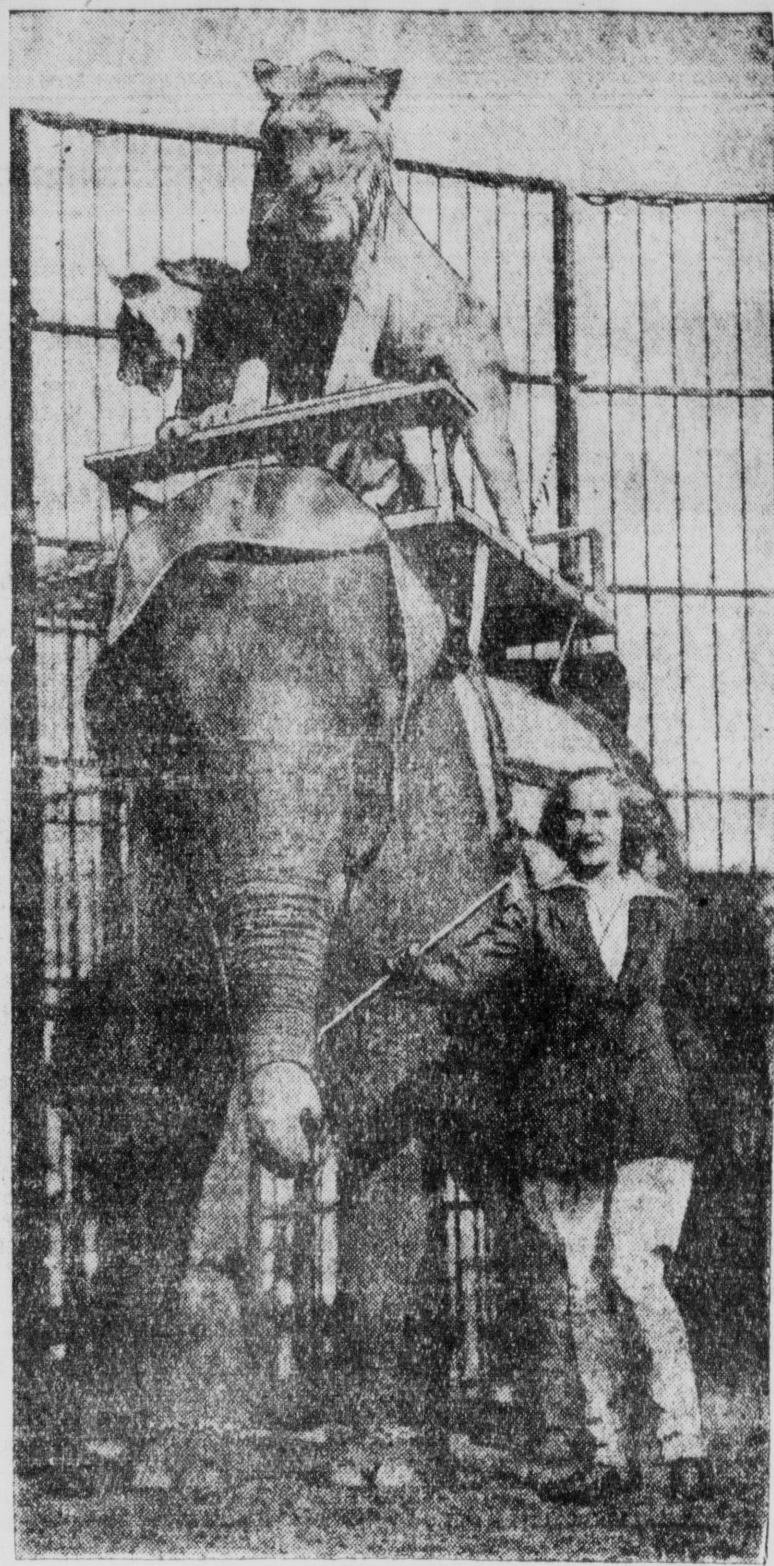

"Anyway, I'm glad I wasn't around when that fellow came for the knife," the orderly dilated with gruesome relish. "I got one scare a couple of nights ago that will last me awhile. I was ready to go back to barracks, and there wasn't a soul around. It was a week night, and I guess everybody was in bed for a change. I went back to the kitchen to change my white coat for my uniform blouse that I always leave hanging out there, and I came back through the dining room. The lights were on out here, see, and the dining room wasn't exactly dark, so I didn't turn on no lights. I was almost in the hall when I seen this sort of floating white figure by the buffet. Not that it was actually floating, or even moving when I first saw it. It was standing real still, like it hoped I wouldn't just notice it at all. Well, for two shakes I would have just cut and run. But I was right by the door, and I figured I could get out quick if I had to, so I reached over and turned on the light."

He paused, enjoying our attention and creating suspense. Then he chuckled a little and went on.

"Well, sir, it was Mrs. Tack—the bride, you know. She had on a kind of white bathrobe, and she had a medicine bottle in one hand and a vinegar cruet in the other, and she was pouring vinegar into the bottle. I reckon I thought she was gaffy or something. I just stood there and stared until she gave a little laugh and asked me if I didn't know vinegar was good for a headache. Seemed she had one and was going to rub vinegar on her head. I told her it was a new one on me, but she just smiled and said, 'Don't tell anyone I swiped it.' So I didn't. But I guess she was just joking, don't you?"

Rodeo Has Language All Its Own

SPORT SCATTERINGS

By Bill Rice

In a front page editorial, the Bradford Era lambastes the daylight out of the Boston Eves' parent club of the Bradford Pony League entry, because the Era alleges, Boh Quinn has gone back on his promise to give Bradford a winner in 1940. The editorial, probably written by Johnny Nelson, Jr., sports savant of the Era, hints that the National League club had better hustle some A-1 players into the oil town to help the fifth-place club, making good "on their pre-season promises and guarantees of a satisfactory winning club or else." From this neutral corner comes the query, "Or else what?"

Like every other community Bradford wants a winner—in fact, win streaks and impressive records demand considerable space on the sports pages of that town's papers. Bradford wanted a great high school football team—and got it year after year. On the grid the Owls have been actually undefeated for a longer time than their opponents have to recall, although an ineligible tackle last year caused the forfeiting of a couple of engagements. Basketball was at a low ebb in the high school, so Harold Brace, so-called miracle man from Shinglehouse was brought out of the Class B circuit and went to work on the Owl cagers, with the result that he nearly turned out a championship team in his first season. Now Bradford demands no worse than a runner-up in the Pony League, and if the fans and sports writers have anything to do with it, it'll be there.

The fact that Chuck Eberhardt will play with Bill Senter, Sam Sneed and Henry Picard at the Assembly Grounds next Wednesday will attract an even larger crowd from this city than usual. Charley is now at the top of his game, as is indicated by a neat one under-par 71 which he turned in during the recent Chautauqua tournament, and is a good choice for the fourth member of the exhibition quartet. Picard's being the P. G. A. champ and Sneed's ability to prod the pellet into the hinterlands will doubtless bring one of the largest crowds ever to witness a match at the sporty 18-hole layout. A number of years ago, Harold Smith played there with Walter Hagen, just a few days after the local pro had set a course record for the Assembly Grounds course.

You said it... Although no announcement has been made by the school board of Youngsville as yet, Clyde Moore, football and basketball mentor, is the coach we hinted would give up his job... Clyde will go on the road for a large feed concern, but will not be entirely out of the sports scene, having a number of officiating assignments in this section... Jim Felt, Jamestown athlete, who served as coach of Cathedral Prep last year, succeeding Larry Danborn, has resigned his post also... He has joined the navy... Sam Hammett, who has been visiting relatives in Jamestown, will leave for training camp at Cornwall-on-the-Hudson August 18th to prepare for the All-Star Game... Ben Kish, Pitt. back, often a Warren visitor, will also be on the Eastern team of college stars... Tickets have already gone on sale for the Marsilion-Erie East game in the stadium October 5... We received an account of a Sunday game yesterday afternoon... Sorry, but we can't use box scores four days later... Clarence Arkey's Russell team has won seven and lost four in the league... The Russell tossers go to Conewago on Sunday... The National Forge has its last chance at Vandergrift tonight, and latest reports are that the pitching burden will fall on Freddie Magiardi.

LONG'S HENCHMAN TO SPONSOR TOURNEY

New Orleans, Aug. 1.—(A.P.)—Doubts as to whether one of the rich golf tournaments of the winter circuit—the \$10,000 New Orleans Open—would be held in 1941, were dispelled today.

Jim Leddy, chairman of the event, said Mayor Robert S. Maestri, one of the leaders of the old Huey P. Long regime, had agreed once more to dig into his own pocket for the prize money.

The mayor already has spent \$25,000 of his own cash for this purpose—\$5,000 in 1938 and \$10,000 each in 1939 and 1940.

There had been recent speculation whether Maestri, harassed by political attacks during the scandal investigations which sent many of his cronies in jail, would sponsor the tournament again.

SOOSE AND ZALE TO FIGHT IN CHICAGO

Chicago, Aug. 1.—(A.P.)—Promoter Bill Rand said last night he had signed Tony Zale, the National Boxing Association's new middle-weight champion, for a 10-round over-weight bout Aug. 24 with Billy Soose, of Farrell, Pa. The fight will be held at Mills Stadium.

Soose, former intercollegiate champion, last week won a non-title match with Ken Overlin, recognized in some states as the middle-weight title holder. Zale, earlier this month, lifted the NBA crown from Al Hostak of Seattle with a technical knockout victory.

NATIONAL FORGE AT VANDERGRIFT TONIGHT

The National Forge tossers and the Vandergrift Redbirds, defending champions, meet tonight in the state semi-pro baseball tournament, the loser bowing out of competition and the winner meeting Ford City tomorrow night.

The team which comes out on top Friday evening will play unbeaten Natrona in the finals next week.

Mike Cook's three-run homer allowed Ford City to eliminate the New Kensington Corbans last night, 5-2.

Tomorrow night at six o'clock the Marconi will play Suppa's Garage on the West Side diamond.

WEST PENN WINS
The West Penn won one in the North Warren circuit, trouncing the State Hospital, 16 to 2. Updegraff and Cruickshank were the winning battery with Copenhaver and Young working for the hospital.

Grayson's SCOREBOARD

If He Hasn't Already Proved It, Challedon Will Be Given Ample Opportunity to Show He Belongs Among Turf's Greatest Weight Packers

BY HARRY GRAYSON
NEA Service Sports Editor

If Challedon didn't earn a place among great weight packers in lowering the track record for a mile and a quarter to 2:02 with 133 pounds on his back in the Hollywood Gold Cup, there is early evidence that the son of Challenger II will be given ample opportunity to do so.

Challedon was assigned top weight of 135 pounds for the \$20,000 Sunset Handicap, closing day feature at the southern California oval.

Challedon now goes to Saratoga and, though weight will stop a locomotive, Challedon will lug a full share... and then some.

Challedon's perfect action helps him pack poundage. He has an abnormal 22-foot stride.

A running horse is like an athlete. The athlete with perfect form doesn't tire as quickly as one lacking it, and isn't in as much distress when he does.

He wastes less effort.

THERE have been notable exceptions, of course, and Exterminator was the most striking in the equine field. Though Old Bones' action was coarse and rough, he was the super deadweight of American thoroughbreds. He bagged a Kentucky feature with 154 pounds up, and scored repeatedly carrying from 131 to 137.

Man of War prevailed with 138, 155 and 131 as a 3-year-old, and came down in front five times as a juvenile with 130 pounds on his back.

Whiskbroom II bore 139 pounds when he set the questionable world record of 2:00 in the Suburban Handicap of 1915.

Discovery, an in-and-out under heavy tonnage, got down in the Brooklyn Handicap at 136 pounds.

Equipoise copped the Arlington Handicap carrying 135 pounds.

Earl Sandie booted Grey Lag home with the same figure up in the Suburban of 1923.

SEABISCUIT toled 133 pounds to victory in the Hollywood Gold Cup, a mile and a sixteenth Bay Meadows combat in 1938. The Riscuit took the Santa Anita Handicap with 150 pounds up, and Gallant Sir accounted for the Agua Caliente at 150 pounds. He Frank strangled the field at a mile and a quarter in the old Cofroth Handicap with 131 pounds on his back in 1921.

Sun Beau stood up under 132 pounds in accounting for the Toronto Cup and took the Fashion Stakes at Agua Caliente with 130.

Those who mention Roseben and Iron Mask as weight packers must admit they were strictly sprinters.

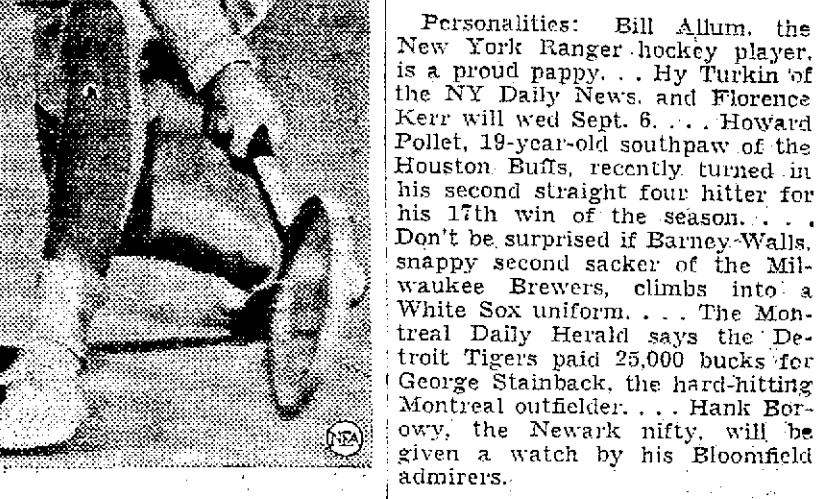

The others were the suspects of the American turf, and Challedon belongs smack dab among them.

Sports Roundup

BY BILL WHITE
New York, Aug. 1.—(A.P.)—Autumn madness: Tim Mara of the New York pro football Giants, says his club'll be terrific again—if Mel Hein holds up... In listing soporific sensations to watch this fall, head your list with Clemson's Booby Payne... Both Auburn's hallbacks, Carp Hopper and Bud Wendling, are reserve second lieutenants in the U. S. Army Reserves... Davey O'Brien, the Philly football phlinger, has recovered from that appendicitis operation and is as good as new... The Washington Redskins will travel 7,229 miles before the grid season opens (they train in Spokane and have a cross country exhibition swing)... Louis Sharpe, Oklahoma's rangy end, boasts a straight "A" scholastic average.

Today's Guest Star
Dan Desmond, Sioux City Journal: "On their fighting record to date it looks like the Dodgers have given up on the World Series assignment... Mike Jacobs must have told them to punch out decisions over the Phillies and the Bees next and they can have a shot at Joe Louis in the fall."

Personalities: Bill Alhum, the New York Ranger hockey player, is a proud pappy... Hy Turklin of the NY Daily News, and Florence Kerr will wed Sept. 6... Howard Pollet, 19-year-old southpaw of the Houston Buffs, recently turned in his second straight four hitter for his 17th win of the season... Don't be surprised if Barney Walls, snappy second sacker of the Milwaukee Brewers, climbs into a White Sox uniform... The Montreal Daily Herald says the Detroit Tigers paid 25,000 bucks for George Stainback, the hard-hitting Montreal outfielder... Hank Borowy, the Newark nifty, will be given a watch by his Bloomfield admirers.

From the Mailbag
The Denver Post's 25th annual baseball tournament, copied by many but equally by none, starts Thursday with 18 entries from nine states. Since 1922 the teams have split \$138,684 in prize money in what we modestly call the "Daddy of all baseball tournaments." Any one of ten clubs can win this year's meet—and probably will. As a former Post wage slave doesn't that make you homesick? The line for reserved seats forms on the right." C. L. (Puss) Parsons, Post sports editor.

"PEP" YOUNG AGAIN WRENCHES GAME KNEE
New York, Aug. 1.—(A.P.)—Pep Young, Pirates' second-sacker, is laid up again with his old trouble, a leg injury. He wrenched his right knee in stealing second during the third inning of the Pittsburgh-Brooklyn game Tuesday night. A physician said he probably will be out of duty for a week.

Willow Creek
Willow Creek, July 30.—Mrs. Lucetia Rosen, Mrs. Edith Houghwot and daughters, Harriett Houghwot and Margaret Radsperner and Mr. and Mrs. Carl Arzner, Keith and Joan Arzner, of Jamestown, and Carl Rosen and Earl White, of Erie, were Sunday visitors of Mr. and Mrs. D. W. Crouch and family.

Mr. and Mrs. Kenneth Armstrong and two children, of Bradford, visited Mrs. Anna Cobb yesterday.

The Bartlett group of Bradford held church services here Tuesday evening. Members of the Fishers of Men band of the Christian Alliance church of Bradford will hold their services here Wednesday evening of this week.

The local Sunday school is planning to hold their annual Sunday school picnic in the near future.

SEEK BOARD'S OUSTER
Pittsburgh, Aug. 1.—(A.P.)—South Fayette township's seven-member school board was ordered by Judge Joseph A. Richardson yesterday to show why it should not be removed from office on a charge of neglecting its duties. The taxpayers committee that obtained the court order claimed among other things that the board purchased equipment without calling for bids, and that a board member's wife was employed as a janitor without having been formally appointed to the job.

The Cleveland Indians and Detroit Tigers still are deadlocked for the American League lead today, proving that miracles do happen.

They won two of the strangest struggles yesterday that ever went into the records in their desperate efforts to elbow each other off the top rung.

The Indians squeezed past the Boston Red Sox 12-11 in one of the nightmares. The Tribe was trailing 7-0 when it came to bat in the fourth and even after Ken Keltner hit a home run with the bases loaded Cleveland continued to lag behind until the eighth inning.

Finally Rookie Russ Peters delivered a pinch single with the sacks filled to score the Indians' tying and winning runs.

War Is a Bother
Say the Children
Of Old England

BY TOM WOLF

NEA Service Staff Correspondent
New York, Aug. 1. A week-long ocean voyage, all alone, to a strange land, is hard under the most favorable circumstances. For war's children it is stupendous. Because of this, the hostesses of the Travelers Aid Society, assigned by the American committee for the care of European children to meet the young refugees, are doubly impressed with their dignity and poise on arrival.

Take tiny, 6-year-old Daphne. Her smiling eyes and curly hair made her a center of attraction for photographers and reporters the moment she measuredly stepped off her ship. Patient and poised, she answered everything.

"We ask you these questions," a patient reporter put in, "the cause—American children are interested in British children. I hope you don't mind."

"Not at all," chirped Daphne.

British children in America.

When Rev. Ralph E. Baney, lecturer, author, world traveler and Jewish missionary from the Holy Land, comes to the First Baptist church at eight o'clock Sunday evening, he will relate experiences of one year in Nazi Germany, including the time spent in a concentration camp.

Mr. Baney will give an illustrated lecture on "Behind the Scenes in Nazi Germany" and "Everyday Life in the Holy Land." There is to be no admission charge, but a free will offering will be taken for Christian missionary work in the Holy Land.

An effort is being made to contact other churches of the community in an effort to have all interested persons hear him and see his pictures.

As a world traveler, Mr. Baney has covered 38 different countries and has made over 5,000 pictures, many of which have been used in his books, newspaper and magazine articles. He has been in Germany five different times, was arrested, thrown into a concentration camp and finally exiled into Czechoslovakia.

Jap Posters Attack U. S. Marines

Anti-American posters advising Shanghai residents to "read this article and arise" were put up by Taisaku Shimizu, Japanese army organ, after incident between U. S. marines and Nipponese detectives. Article mentioned attacked the marines and was headlined "They Treat Japanese Like Animals" and "American Gentlemen With Human Faces and Animal Skins Display Hypocritical Attitude."

less amusement. Little Wendy is only 4. Her father was killed in the Flanders pocket. She's bound for the home of complete strangers in Colorado. At the pier she heard a fellow passenger complain of the long waiting necessary to get through customs. Up piped the 4-year-old in confirmation. "Endless," she said, "perfectly endless."

None of the children have forgotten the war. Many refuse to part with their gas masks even after arrival. A befuddled maid discovered Diana, age 5, on her first night in New York climbing to the sill of an open window, pulling down the shade. "One can't be too careful," Diana insisted. "The Jerries are likely to fly over any moment and see our light."

Six-year-old Robin was on his way to the Texas home of a former A. E. F. captain who was billeted in a small French town with Robin's grandfather in the first World War. Robin had lost all his baggage and personal belongings on the complicated voyage from England. With great solemnity and complete mastery of British understatement, young Master Robin commented: "This war is a bit of a bother, you know."

Ben Bernie's Band Scheduled to Play For Dance at Park

Ben Bernie, the old master of all the lads, who appears at the New Pier at Colonn Park on Saturday night of this week, has come a long way from a humble beginning as Benjamin Anzelevitz, one of eleven children born to a poor couple in Bayonne, N. J.

Very early he decided on a

vaudeville career, which he pursued for some time with occasional successes and frequent lay-offs. The war broke out just as he was getting a foothold on the stage. His attempt to enlist was refused and, when the armistice came, he decided to form his own orchestra and take advantage of the post-war dance craze which began to sweep the country.

The organization met with immediate success and Bernie really hit his stride. Radio was just beginning to be noticed by the public and Ben's easy-going microphone manner was ideally suited to this new medium.

From a berth at the newly constructed Hotel Roosevelt in Manhattan, he moved to the College Inn in Chicago, where he was given his first commercial broadcast on a nation wide hook-up. He was the first entertainer to "kid" his product and set the pattern for later broadcasts.

He needs no introduction to dancers and radio enthusiasts and his appearance at the nearby resort on Saturday night will probably provide another of the season's records.

DEMURRERS DISMISSED

Pittsburgh, Aug. 1.—(P)—Federal Judge F. P. Schoonmaker yesterday dismissed demurrers filed by 18 officers of the AFL carpenters union against conspiracy indictments returned in the federal investigation of Pittsburgh's building industry last winter. The dismissal opened the way for the first court trial, possibly in November, resulting from the investigation. Thomas E. Whitten, Jr., local counsel for the union leaders, indicated they would file pleas of innocent in a few days. The indictment charged them with conspiring with local millwork manufacturers, the Lumber Institute of Allegheny county and the Master Builders Association to restrain and monopolize interstate trade in "stock"
